Explosion Rocks Buenos Aires

Take it from Here

A life insurance company recently reported that approximately 6,000 school children in the United States are killed in accidents each year.

Motor vehicle mishaps account for nearly 40% of these fatalities. Another 25% die from drowning.

The report points out that accidents claim seven times as many victims as acute polio myelitis among boys five to 14 years old and is the leading killer among the older elementary school boys.

Among girls, accidents account for more than a fourth of all deaths and outrank every other cause of death in the five to 14 age range.

The report further points out that one out of every six fatal accidents occur in the home.

* * * *

The Dixon police department, with an assist from the Dixon Junior Chamber of Commerce, is attempting to do something about this alarming accident rate among school children by handing out tips on bicycle safety with each license tag.

These tips are contained on a pocket-sized card put out by the Bicycle Institute of America. Included in these tips are 12 rules for safe bicycling and information for keeping a bicycle in good operating condition.

* * * *

The safe bicycling rules are:

Observe all traffic regulations such as red and green lights, one-way streets, stop signs, etc.

Keep to the right and ride in a straight line. Always ride in single file.

Have a white light on the front and a danger signal on the rear of the bicycle for night riding.

Have a satisfactory signaling device, such as a horn or bell, to warn of approach.

Give the pedestrian the right-of-way. Avoid riding on sidewalks, otherwise use extra caution.

Look out for cars pulling out into traffic and keep a sharp look-out for the sudden opening of auto doors.

Never hitch onto other vehicles "stunt" or race in traffic.

Never carry other riders. Packages or objects that obstruct vision or prevent proper control of the bicycle should not be carried.

Be sure the brakes are operating efficiently and keep the bicycle in perfect operating condition at all times.

Slow down at all street intersections. Always look to the right and left before crossing an intersection.

Always use proper hand signals for turning and stopping the bicycle.

Don't weave in or out of traffic or swerve from side to side.

* * * *

The Bicycle Institute advises bicycle riders to use caution at all times and to have their bicycles checked twice a year by a reliable serviceman.

The police estimate that there are 1,500 bicycles being ridden in Dixon, judging from the current demand for licenses.

This is approximately one bicycle for every eight persons living in the city.

M. H.

Arrested After Auto Accident

A rural Walnut youth, Ray Schoff, 16, was arrested late Friday as the result of a two-car collision near the junction of Seventh Street and Chicago Avenue.

Officer Ernest Smallwood arrested the youth for failure to yield the right-of-way. The second auto was driven by James L. Knox, 38, 1323 W. Third St., Dixon.

Both cars were damaged considerably, according to Smallwood. Neither driver was injured.

Reports Theft

Charles Brockwell, Rt. 4, Dixon, Friday reported the theft of a spare tire and wheel from his parked car. The alleged theft occurred sometime late Thursday or early Friday, Brockwell said. The car was reportedly parked north of the courthouse.

EDITORIAL

Let's Invest a Little More in Our Area's Future

On Tuesday the residents of the Dixon school district will go to the polls to decide the question of raising the educational tax rate limit. We hope a record number of voters will cast ballots, for only then will the referendum reflect the actual will of the people.

* * *

During the past few days this newspaper has printed a series of articles to show the financial situation of the school district. We feel that the increase definitely is needed, for without it the district will not only stand still, but slip backward.

The series of articles was concerned mainly with finances, and while money matters are important, they are not an end in themselves. We must not become bogged down in finance and lose sight of the actual goal—the best education we can afford for our youngsters.

It is too easy to forget that school taxes are not an investment in buildings and books, but in future citizens. It's a long-term investment, and it brings longer-term returns.

For 13 years—from the time children enter the kindergarten room all sparkling and full of wonder until they accept high school diplomas with unaccustomed dignity—they are training for responsible citizenship. Such training is important, for it must last a lifetime.

It is in school that they learn much of cooperation, competition, sportsmanship, respect for the rights of others, independence, perseverance, as well as what they gain from books.

* * *

When you go to the polls Tuesday, please don't stop at the question, "What will it cost me?" Remember what you will gain. The responsible citizenship formed in the students now will be Dixon's asset for many years to come.

Vote "Yes" in Tuesday's referendum!

Toll Body To Peddle Bonds

Hope to Begin Three Highways Next April

CHICAGO (AP)—The Illinois Toll Highway Commission says it will proceed with plans to sell 400 million dollars worth of road bonds while it is fighting a group of opposing property owners in the U. S. Supreme Couprt.

The self-liquidating bonds are to go on sale about Oct. 17, a commission spokesman said Friday. The bond issue will be managed by Halsey Stuart & Co. and Glore Forgan & Co., both of Chicago, with participation of 560 investment banking firms throughout the nation.

Construction of 193 miles of toll roads is expected to start next April and to be completed in three or four years.

The commission Friday asked Supreme Court not to permit a group of property owners to file a second petition for rehearing of a suit to halt construction of the roads.

The property owner's mostly from Chicago's western suburbs, on Aug. 31 asked the court for permission to petition for a rehearing. The plaintiffs first asked an injunction last Dec. 17, contending that by condemning their land the commission had deprived them of their property without due process of law. The court ruled against the property owners May 31.

Construction to begin in April would be in three phases, known as the Northern Illinois Toll Highway. This would include:

1. The east-west route, extending from a connection with the Chicago Congress Street Expressway to Moline, Rock Island and the Iowa boundary.

2. The north Illinois route, extending from the intersection of the Northwest and Edens expressways near Chicago in a northwesterly direction, across the tri-state route near O'Hare Air Field, and then running to the Rockford area and to the Wisconsin boundary near Beloit.

3. The tri-state route, which would extend from the Kingery Expressway near the Indiana line, by-pass the Chicago metropolitan area to the west, parallel and just east of Route 83, past O'Hare Air Field, and then parallel to and west of Route 41 to a point just south of the Wisconsin boundary.

Four Cases To Be Placed Before Grand Jury Monday

State's Atty. James Bales said today that he will seek criminal indictments against two area youths and two elderly sisters when the September term of the Lee county grand jury convenes Monday.

Bales said that he will ask for true bills against:

Charles E. Schick, 20, Rock Falls. He is charged with larceny.

Phillip Sofolo, 20, Dixon. He is charged with reckless homicide.

Mrs. effie L. Vinyard, 68, and Miss Flora M. Graves, 57, former Dixon State School resident employes. They are charged with larceny.

Schick is charged with the June 13 theft of a Dixon man's outboard motor. His alleged accomplice, Lloyd Oellig, 20, Sterling, waived trial by grand jury indictment and pleaded guilty to a similar charge. Oellig was granted probation.

The motor was stolen from a stand on the Wayne Hershberger property, 1024 Myrtle Avenue. It was recovered a few days later in a Rock Falls second hand store.

The charge against Sofolo resulted from collision Aug. 13 south of Dixon in which his passenger, LaVerne Landorf, 30, Dixon was killed.

A coroner's jury recently ruled that Sofolo had operated his car in a "wanton" manner.

Two Rock Falls women, Mrs. Tina Peters, 50, and Mrs. Isabelle Cunningham, 34, were seriously injured when the speeding Sofolo auto crashed into the car in which they were riding.

Mrs. Vinyard and Mrs. Groves, who had worked and lived at the local institution for a total of nearly 40 years, are charged with the theft of an undetermined amount of merchandise from the Dixon State School.

The two sisters were arrested May 20 by Shawneetown, Ill., authorities after they reportedly found a "house full" of merchandise allegedly taken from the Dixon institution.

Third American Released at Hong Kong by Chinese Reds

Held Nearly Six Years in Commie Jail

Italian Bishop Also Released; More Are Coming

HONG KONG—(AP)—Continuing their slow-motion turnover of 10 American civilians they had promised to release at once, the Chinese Communists sent a third man across the border to freedom today.

He was Lawrence R. Buol, 34, of Stockton, Calif., who arrived at the frontier after five years eight months imprisonment.

The Reds also released an ailing Italian bishop who said he had been a prisoner in Communist China since 1951.

Buol, former operations officer for the American-owned Civil Air Transport was in high spirits. He told welcoming American and British officials that his years of confinement had not been too rough physically, but "morally I was treated badly."

Asked About Wife

Buol immediately asked about his wife Sue, who has been keeping an anxious vigil in Hong Kong ever since word arrived that he was to be freed.

He also sent a telegram to his family hailing his release as "the happiest day of my life."

"I want to express my thanks and appreciation to everyone, large and small, who contributed towards the amelioration of conditions and to all those responsible for my release," he said.

Happily chewing gum, Buol wore a sports shirt and faded knee pants. He said he had lost about 30 pounds during his ordeal but looked fairly fit.

In contrast, the Italian prelate, identified as Bishop Alphonse Ferroni, was so weak he had to be carried across the Schumchun River border.

"I can't believe how any person in his right mind should want to go back there," Ferroni said, motioning in the direction of Red China.

Six, Seven More

The prelate said six or seven Americans had boarded his train at Hankow and probably were now in Canton, 80 miles from Hong Kong.

Buol's release came just 24 hours after the arrival of two other Americans—Walter A. Rickett of Seattle, a Fulbright scholar, and the Rev. Harold W. Rigney of Chicago, Roman Catholic educator. Both had been held since 1951.

All three were set free as a result of the Geneva negotiations between representatives of the United States and Red China. The Chinese agreed to release at once 10 of 41 American civilians held. Twelve of the 41, not actually under arrest, are declared by the Chinese to be free to go when they choose. The other 19 may appeal to the British charge d'affaires in Peiping to help them get out.

PRIEST GIVEN FREEDOM BY REDS—The Rev. Harold W. Rigney, in goatee, a Catholic priest from Chicago, talks into a microphone at Hong Kong Sept. 16 after he and Walter Rickett, Fulbright scholar from Seattle, Wash., were released by Red China. Others in the picture are unidentified. Red China has promised to release other Americans. (AP Wriephoto via radio from Hong Kong)

Red Prisoner Meets Wife

☆ ☆ ☆ ☆ ☆ ☆ ☆ ☆ ☆ ☆ ☆ ☆ ☆

HONG KONG—(AP)—A long, slow kiss today ended 5½ years of separation for Lawrence Robert Buol, just released by the Chinese Communists, and his wife, Sue, who worked tirelessly to get him out.

"Honey! Bob!" she cried when she saw him an hour 20 minutes after he was released. "You look wonderful!"

The brown-haired wife raced into Buol's arms with tears in her eyes.

"I want to take you home and dress you," she said, laughing. Buol wore a ragged sports shirt and faded shorts when he crossed into Hong Kong from Red China.

Mrs. Buol, who is Gen. Claire Chennault's secretary at Civil Air Transport headquarters on Formosa, had doggedly sought her husband's release since he was captured on his last CAT flight by the Reds Jan. 15, 1950.

Flew To Geneva

Last year she flew to Geneva to intercede personally, with Red China Premier Chou En-lai.

They had been married only six months when Buol was captured.

Reporters asked Buol about Communist charges of territorial intrusion which kept him in prison five years eight months.

He said he was tried only last Sunday at Chungking—after his coming release had been announced in Geneva. Asked if he "confessed," Buol replied:

"Yes. I had to write a confession. They told me it was the only means of getting out."

He said he had made a "confession" Jan. 11, 1951, after "an intensive interrogation" the day before.

Mrs. Buol hugged her husband around the waist during the entire interview, which closely followed the first moments of reunion.

"I am shaking all over," she said.

Buol told newsmen "The Geneva conference made it possible for me to come home."

Buol said he was under house arrest at Mengtse, until March 1, 1950 when he was put in a concentration camp at Kunming. Until August 1951 he was in a 10-by-12 foot cell in solitary confinement and was questioned and "educated."

Buol described the latter as "discussion, criticism, self confession and reading Communist literature." He said that during "self confession" sessions he wrote about CAT airline operations.

Asked if he was tortured, Buol replied: "Only mentally — not knowing what the situation was was worse than torture."

Dixon Girl Scout Fund Drive Opens

The Dixon Girl Scout organization will open its annual fund-raising drive Monday. The goal is $3,500.

Mrs. Jack Bierwirth, Shore Acres, is chairman of the campaign that will be conducted door-to-door in 12 sections of the city, each under the direction of Girl Scout Board members.

The money will go towards underwriting a program that involves 624 girls in 36 troops throughout the city.

Herb Zeien of the Rotary club is handling the solicitation among business firms.

River Bank Shooting an 'Accident'

Sheriff John Stouffer said today that further investigation into the Sept. 2 shooting of an elderly Dixon man indicates that the incident was "purely accidental" rather than "carelessly deliberate," as first surmised.

The victim, Harry Williams, 71, 412 Depot Ave., is listed as in "good" condition in Dixon KSB hospital with a gunshot wound in his left leg.

Williams was shot while walking along the west bank of the Rock River near the Dixon State School property.

He told authorities following the shooting that two youths had been shooting from a boat just prior to the incident and said he had shouted a warning to them.

Authorities have questioned several youths known to have been shooting in the area when the mishap occurred, including two Dixon youths who admitted being in a boat. The youths have denied any knowledge of the shooting.

Stouffer said that no charges have been filed.

Nixon Will Reply to Critics Of Ike's Farm Policies

WABASH, Ind.—(AP)—The Eisenhower administration's farm policy, shaping up as the top issue of the 1956 campaign and already under heavy Democratic attack, was due for a top level defense this afternoon from Vice President Richard M. Nixon.

He promised to fire back in his speech here at the National Plowing Championships at Democrats who blame the administration for falling farm prices.

Democrats, remembering the farm vote which helped elect President Truman in 1948, consider declining farm income their best talking point in their fight to retain control of Congress and possibly elect a Democratic president next year.

Blame Ike

National Democratic leaders claim the Eisenhower administration's flexible farm price support program is responsible for the drop in prices and have accused the administration of breaking its 1952 campaign pledges on the farm issue.

The latest attack came here Friday from Claude M. Wickard of Camden, Ind., secretary of agriculture in the Truman administration.

In a separate speech to the Wabach County Democratic Committee, he said the administration has not kept its pledges to farmers "by any standards."

Recall Promises

He quoted Eisenhower as saying at the National Plowing contest in Kasson, Minn., in 1952 that "agriculture is entitled to a fair share of the national income and it must be a policy of the federal government to help agriculture achieve that goal in ways that minimize government control and protect farmers' independence and a fair share is not merely 90 per cent of partiy but full parity."

Wickard said that at present farmers are receiving only 84 per cent of parity, which is a price level aimed at getting farmers a fair income for what they sell in relation to the things they must buy.

Wickard added that the Agriculture Department has predicted a further decline in farm prices the rest of this year.

School Referendum Facts

The Question Shall the educational tax rate limit in the Dixon school district be raised from 95 cents per $100 assessed valuation to $1.35 per $100 assessed valuation?

The Time—Tuesday, Sept. 20, from noon to 7 p. m.

The Polling Places—South Central school for all voters living south of Rock river and west of Dixon Airport. Dixon high school for those living north of the river and those in the old Hazelwood district. Grand Detour town hall for residents of the former Grand Detour district. Nachusa town hall for those in the Kingdom and Nachusa areas.

Voter Registration—None required. A legal voter must be 21 years of age, a citizen of the United States and a resident of Illinois for one year, of Lee county for 90 days and of the Dixon school district for 30 days.

Presumably Bomb Hits Port Area

Peron Forces Claim Rebellion Is Being Smashed

BUENOS AIRES, Argentina—(AP)—A thunderous explosion rocked the Buenos Aires port area this morning. The explosion was heard as a plane flew over and presumably dropped a bomb.

Persons in the streets first panicked, then calmed. There was no immediate report of damage or casualties.

By SAM SUMMERLIN

BUENOS AIRES—(AP)—Forces supporting President Peron seized the initiative today and hammered savagely in an effort to crush a rebellion that flared Friday at half a dozen points. Maj. Gen. Franklin Lucero, "commander of repression," said there was "tranquility" except at isolated points.

It was the fourth attempt to oust Peron since the unsuccessful navy-led revolt of June 16 and was clearly the bloodiest rebellion Peron has faced in his nine years of power. There have been alternating claims of success in the current uprising.

All Is Quiet

Lucero repeated a previous proclamation assuring the people that there was "tranquility throughout the country" except at the scattered points of rebel resistance. He identified only two resistance points, Cordoba, important city in central Argentina 400 miles northwest of Buenos Aires; Punta Alta, a city of about 26,000 some 375 miles southwest of Buenos Aires.

Rebel forces claimed to have captured Bahia Blanca, a big wheat port, late Friday.

The broadcast insisted the Argentine navy was loyal to the Peron regime and that the main fleet was anchored at Puerto Madryn, 600 miles south of Buenos Aires. This claim of naval loyalty conflicted with rebel claims the fleet was steaming northward in battle formation to join the revolutionists.

The rebels have claimed since Friday night they controlled much of southern Argentina, plus strategic Cordoba province and its capital, the city of Cordoba.

A rebel radio station calling itself the "Force of Freedom" broadcast today from Cordoba.

The broadcast warned that anyone caught spreading false rumors "would be shot on the spot." It claimed the insurgents are not aligned with any political party, are not "the instrument of the ambition of anyone." It declared that "only God and the fatherland guide our steps."

Lashing out in the predawn hours today, troops loyal to Peron crushed two rebel strongholds. A government radio broadcast said: "Important military troops which are advancing to suffocate rebel centers continue to progress with the support of military aviation."

There was no accurate estimate of casualities in the bitter fighting but the toll was expected to far outstrip the 300 to 400 dead and 1,000 wounded in the June 16 upheaval. The largest announced death count was at Eva Peron, the capital of Buenos Aires Province, where 80 policemen were reported killed.

The rebels early today still claimed control of the central plains of Cordoba, the naval forces at sea, the big naval base of Puerto Belgrano and other isolated spots in the interior.

Airborne loyalist troops were reported in action against rebel forces at Cordoba, the provincial capital and a city of 350,000 persons.

HONOR GUEST

KINGSTON, Jamaica (AP)—Adlai Stevenson was honor guest at a reception given by U.S. Consul David Maynard Friday night. He later attended a dinner party at the Mountain Inn.

Parade Highlights Annual Fall Festival in Ashton

ASHTON — (Special) — Ashton residents, celebrating a two-day fall festival, watched a seven-block-long parade through the business district Friday night.

The eighth observance continues tonight with WLS entertainers and a lion act featured on the program.

A total of 150 in prizes was awarded during the parade.

The Ashton Evening Guild won the top prize in the ornamental float division. Other winners were Erwin Safraek, Pawpaw, second; Grove Girls 4-H Club, Franklin Grove, third; Cherub Choir of Ashton Evangelical Church, fourth, and Presbyterian Mariners Club, Pawpaw, fifth.

The top clown was George Luckey, Ashton, and outstanding in the children's division were Carli, Ana and Rene Cain, daughters of Mr. and Mrs. John R. Cain, Ashton, and Charles, Aneta and Paula Springer, children of Mr. Don Springer, Ashton.

Commercial float division entries also were judged. Boyd Motor Sales, Ashton, was first; Ashton Bank, second; Tot and Teen Shop, Franklin Grove, third; Davis Junction elevator, fourth, and Lee County Extension Service, fifth.

Groups Meet

POLO —(Special)—The Kensington Club met Wednesday afternoon at the home of Mrs. Donald Personette. The program on "Helen Worden Erskine" was presented by Mrs. Charles Cox, after which refreshments were served.

Dorcas class of the Methodist Sunday School met Friday evening at the home of Mrs. Arthur Stoner. Co-hostess was Mrs. Hazel Franks.

WSCS to Meet

AMBOY — (Special) — The WSCS of Amboy Methodist Church will meet Thursday afternoon at the country home of Mrs. C. W. Buckingham. The July, August and September birthdays will be celebrated. Mrs. R. W. Bellows, Mrs. Mae Thompson and Mrs. Harold July Sr. will be assisting hostesses.

Polo Ready For Gala Fall Festival

POLO —(Special)— Plans are practically completed for the fall festival, to be sponsored by the Polo Civic League, to be held in Polo Friday and Saturday, Sept. 23 and 24. A parade will be held Friday evening at 6 p.m. It is expected that there will be a big array of floats, decorated cars, decorated bicycles, comics and organizations.

A new feature of this year's festival will be a fat steer show. This show will be held on the I.C.R.R property north of the freight house. There will be open judging, followed by judging for the trophies offered. Saturday at 1 p.m. there will be an auction for the contestants who wish to sell their stock.

The Peck amusement company will be here again this year, with it various rides and amusements. A dance will be held at the Town Hall Saturday evening from 9 p.m. until 1 a.m. There will also be a queen contest, and the Queen will be crowned at 9 p.m. at the Town Hall before the dance begins.

A water fight by the Polo fire fighters will also be one of the attractions.

Amboy Legion to Have Installation

AMBOY — (Special) — Members of Potts-Lavelle Post of American Legion and its Auxiliary will hold joint installation of officers Monday at 8 p.m. in the American Legion Clubrooms in Amboy.

District Cancer Meeting Is Held in Sterling Thursday

OREGON — (Special) — Thirty volunteer workers of the Ogle County Chapter of the American Cancer Society, including Mrs. O. J. Caron, chairman, attended the first district meeting of the society in Sterling Thursday.

After registration, Dr. Saul Park, Sterling, was moderator of a panel discussion, "Our Doctors Look at Cancer."

Dr. Peter Gray, Sterling, told of new methods used in the diagnosis of cancer. Dr. K. J. McFetridge, Dixon, explained surgical methods for the early diagnosis and cure of internal cancer as well as superficial malignancy.

Dr. Park spoke of the major part irradiation plays in the cure of cancerous growths.

Dr. John Rogers, executive director of the Illinois division of the society, closed the discussion with comments on the personnel problem of finding good doctors for research.

New Policy

Robert L. Krit, Illinois campaign chairman, spoke on federated funds. He said a new policy of the American Cancer Society prohibits it from entering any new federated fund services.

After lunch, Olive Field, director of the Bureau of Investigation of the American Medical Assn., talked on "Cancer Quackery, Today's Black Art."

He said, "In this 20th century atmosphere of great scientific and medical advancement, it has been estimated that cancer quacks cause many thousands of needless deaths each year and mulct the American public to the extent of millions of dollars annually."

"The types of persons attracted by quacks fall into four categories," said Field. "Those who are suffering from cancer and cannot be saved through proven methods. The naive—who are taken in by shining promises. The uninformed—who do not know that so far the two methods of treating cancer are radiation and surgery. There is another group who have received extensive radiation therapy and go to the quack while feeling the untoward effect of such drastic treatment, the beneficial actions of which are not immediately discernable."

Investigates "Cures"

In his work with the bureau, Field has investigated many "cures" ranging from colored tap water to "electronic" devices. In his files are the stories of thousands of men and women who lost their lives because of these and other "cures." The files also contain testimonials from people convinced they were cured of cancer, which are used by the quack to advertise his alleged ability. Field pointed out that testimonials are not reliable and usually investigation discloses that the true story has not been told.

Field told his audience there are several ways of determining the status of a man who says he is a cancer specialist:

—Write to the American Medical Association's bureau of investigation.

—Visit or call the nearest ACS information center.

—Contact your County Medical Society.

The one-day meeting was concluded with the announcement that Mrs. B. F. Brickley of DeKalb and Dr. George Kirby of Spring Valley have been nominated as directors by delegates from the 13 county chapters comprising the First District. They will be supported for election to the Board of Directors of the Illinois Division at the annual meeting to be held in Chicago on Nov. 10 and 11.

Polo Notes

Mr. and Mrs. Harold Unger left Monday to visit their son, Dick, at Kelly Air Force Base, Tex.

Mrs. Harold Munk and children of Forreston were recent visitors in the home of the former's mother, Mrs. Pearle Obendorf.

Staff Sgt. and Mrs. Vernus Johnson and son, Brian, who have been visiting the former's mother, Mrs. Aldro Johnson, and his wife's parents, Mr. and Mrs. J. B. Stouffer, will leave today to return to Reno, Nev.

Mr. and Mrs. Walter Schmidt, James and Eileen were Chicago visitors Wednesday.

Mr. and Mrs. Larry Perrin have returned after two weeks in the south.

Mr. and Mrs. Walter Rucker are visiting the former's brother-in-law and sister, Mr. and Mrs. A. E. Henley, and family, Austin, Minn. Rucker is on vacation from his duties at Dixon State School.

Home Bureau

AMBOY — (Special) — The Amboy Afternoon Home Bureau will meet Tuesday at 2 p.m. at the home of Mrs. Clarence Yocum, 112 N. Mason Ave., Amboy.

DEEP STUFF—No hot studio lights for Gene Drivas who models her own creation of a cotton print play suit which also can be used for bathing. She demonstrated it below the surface of the waters of Rainbow Springs near Dunnellon, Fla.

Polo Pastors Pick Officers

POLO —(Special)— At a meeting of the Polo Ministerial Association, the following officers were elected:

The Rev. Hubert Newcomer, pastor of the Church of the Brethren, president; the Rev. Clifton E. Butler, pastor of the Christian Church, secretary, and the Rev. Leonard Lowe, pastor of the Methodist church, treasurer.

Plans were made for the annual union Thanksgiving service to be held Nov. 23 at 7:30 p.m. at the Church of the Brethren, with the Rev. Bertram Davies, pastor of the Presbyterian Church, as guest speaker.

Plan Rally Day

POLO —(Special)— Rally Day will be observed at the Methodist Church Sunday. The sermon title for the church worship will be "God Works for Good."

Class to Meet

POLO —(Special)— The Fellowship class of the Christian Church will meet at the church Monday at 7:30 p.m.

News of Nelson

Community Club Picks Bill Hollingsworth as President

NELSON — (Special) — Nelson Community Club elected officers during the regular meeting Tuesday evening.

Bill Hillingsworth was named president; Harry Remrey, vice president; Mabel Gall, secretary, and Lucille Sharp, treasurer. Doris Wilder was named program chairman.

Marine Pvt. Lloyd Gordon Jeter is home from the San Diego, Calif., Marine base for a 21-day leave with his parents, Mr. and Mrs. Loren Jeter. He will leave Sept. 25 for Oceanside, Calif., to report to Camp Pendleton. He expected to be sent to the South Pacific area.

Fly to California

Mrs. Mina Valve and son, Victor, left by plane recently for Los Angeles, Calif., where they will visit friends. They also expect to visit Mr. and Mrs. Jerry Pinta and family, Tucson, Ariz., before returning home.

Mr. and Mrs. Mervin Gale and family, Moline, visited recently in the home of his mother, Mrs. Bessie Gale, and Mr. and Mrs. Jack Thompson and family.

Gus Gaines, Chicago, visited a few days with Nelson friends.

Mr. and Mrs. John Gale, his mother, Mrs. Bessie Gale, Mary Jo Thompson and Nancy Gale and Herman VonBergen, motored to Chicago recently where they visited Connie Gale, who is a patient at Shriner's Hospital. The casts have been removed from Connie's legs, and she is allowed to stand on her feet a few moments each day. It will be necessary to perform one more minor operation. Connie is looking forward to being home for Christmas.

Mr. and Mrs. Clarence Shannon Sr., Bronson, Ia., are visiting at the home of their son and family, Mr. and Mrs. Clarence Shannon Jr.

Return Home

Mrs. James Miller and daughter, Margaret Ann, have returned from Plainview, Tex., where they visited three weeks with her mother, Mrs. Leva Walker, and other relatives.

Mr. and Mrs. John Graybill, Milwaukee, Wis., who have been spending several days at the home of Mrs. Grace Janssen and Mr. and Mrs. Bill Janssen, left Thursday morning for Chicago, where they will visit before returning to their home in Milwaukee. Johnny and his family were former residents of Nelson. They left here in 1936.

Mrs. Frank McEleney went to Chicago, Thursday morning where she will spend the remainder of the week with her husband and relatives.

Mr. and Mrs. Clemens May and family spent the past week in Chicago with relatives.

Boys Ill

Dwight Pierce, 5, son of Mr. and Mrs. J. T. Pierce, is ill at his home with chicken pox.

Tom Paschal, 9, son of Mr. and Mrs. Alfred Paschal, expects to return to school the last of the week, after having mumps.

Mr. and Mrs. Frank McEleney recently spent a few days in Iron Mountain, Mich.

Mr. and Mrs. Ivan Sharp and Mr. and Mrs. Harry Remrey expect to leave Monday morning for Vermilion Bay, Ontario, Canada, where they will enjoy a 10-day fishing trip.

Mrs. Joseph Moore and son, Sgt. Daniel Moore, who is spending his furlough in Nelson with his parents, returned Monday from Loretto, Ky., where they visited with their daughter and sister, Sister Judith Ann at the Loretto Novitiate.

Walton School Mothers Meet

Walton School Mothers Club held its first meeting of the season Wednesday evening in the school.

The new officers for the year are Mrs. Lawrence Montavon, president; Mrs. Ned McCoy, vice president and Mrs. James Morrissey, secretary-treasurer.

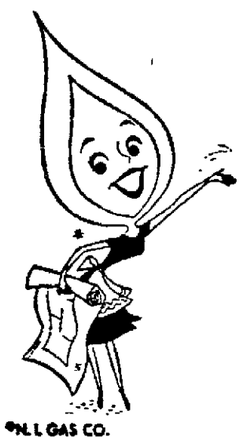

The club will meet the first Wednesday of each month. The group plans to hold a bake sale in the school Oct. 2 from 9 to 11:30 a.m.

Refreshments were served by Mrs. Morrissey, Mrs. Montavon and Mrs. Melvin Payne.

Rochelle Soldier Completes Course

FT. KNOX, Ky.—Pvt. John A. Kingma, 19, son of Albert E. Kingma, Rochelle, Ill., recently completed the 12-week radio communications course at Ft. Knox, Ky. Pvt. Kingma, a former student at Drake University entered the Army in April, 1955, and completed basic training at Ft. Leonard Wood, Mo.

Be a smart Buyer

Look for the *Penny Flame* sign. It's the sign of a thoughtful builder who knows that the design . . . the performance . . . the efficiency of modern GAS appliances . . . fit in perfectly with all the other up-to-the-minute good living ideas he has included in this house. It's the sign of a builder who suggests GAS for fullest enjoyment of better living . . . at lowest cost.

See how much you Save with Gas

The builder who displays the *Penny Flame* sign knows most home buyers want a house that's easy on the budget. He knows GAS appliances cost less to maintain and less to use . . . much less. *In fact, you can save as much as a month's payment on your house each year when you use GAS appliances.* That's the kind of economy that appeals to new home-seekers today . . . that's the kind of economy you enjoy when you let GAS do all the big home jobs for you.

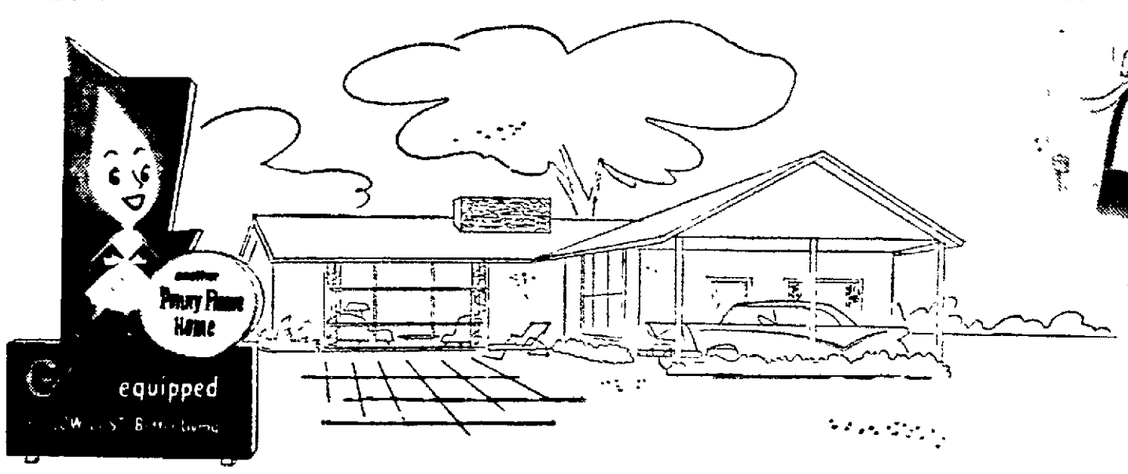

Gas does it Better . . . for Less!

Only speedy GAS heats water so fast. GAS offers silent refrigeration, lowest cost clothes drying, easy garbage disposal. And, of course, nothing beats the GAS flame for finest cooking.

So be sure to look for the *Penny Flame* sign when you're buying **a home.** It means you can enjoy years of GAS appliance convenience and economy . . . *it's your guarantee that the builder has your interest in mind!*

Penny Flame says: "Whenever you see my sign, indicating a home that is GAS-Equipped for Low-Cost Better Living, you'll find a builder who is contributing to the sound residential growth of northern Illinois by helping families find the way to happy living in modern homes of their own."

HOMES FOR AMERICANS

AP Newsfeatures

SPACE TO SPARE features this luxury house containing four bedrooms, two baths, extra lavatory and two-car garage. A large glassed-in porch with a barbecue fireplace adjoins dining room and kitchen. Another fireplace faces the wide bowed window in the living room. A family room den adjoins the kitchen on the garden side. Plan C426AP, designed by Lester Cohen, architect, Archway Press, 117 W. 48th St., New York 36, N.Y., this house covers 3,700 square feet. Overall dimensions are 109 by 64 feet.

Metal Lath and Cement Makes A Fine Play Box

Can Be Used Year Around

By VIVIAN BROWN

A sturdy "four-seasons" play box is just the thing for your backyard. Such a box offers many advantages for youngsters. In fall it may hold sand, a delightful way to keep tots out of mischief while Autumn leaves fall. The same crowd of tiny laborers can build a snowman or little igloo in the box come winter. In spring it may hold water and fish to entertain tiny anglers. In summer it can be a sturdy wading pool.

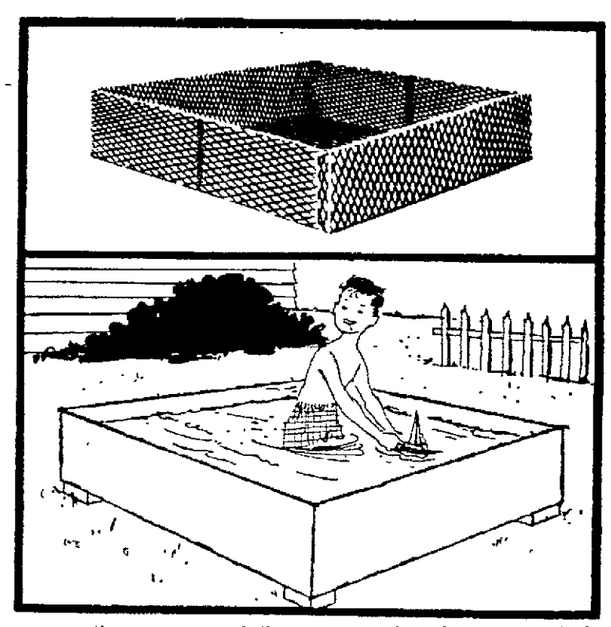

The box may be of any size built either at or below ground level, and constructed of metal lath and concrete. At ground level the drainage problem is eliminated by inserting a drain pipe in the concrete mix at floor level during the construction stage.

Amateurs do not need to build forms to hold the mix in place. A basket-like box of metal lath and tie wire is all that is needed. After that stage a trowel applies concrete to the sides and bottom of the box. Ready-mixed dry concrete available in bags at hardware stores and building supply houses makes the job even simpler. The concrete keys itself to the basket through hundreds of small diamond-shaped openings in the metal lath.

The lath is easy to work with because it may be bent to shape by hand. It is available in sheets at building supply houses or lumber yards, may be cut easily with tinners' snips. The diamond mesh lath weighing 3.4 pounds per square yard is best for a box of this sort.

Parents may wonder at the advisability of building such a permanent fixture. The children will grow up, they reason, and there they are stuck with a concrete box in the yard.

Other uses for a fixture of this sort however, may be employed by any homeowner. The box may be built up a little more within its form and used as a place to burn trash. It is ideal for a compost pile, something to keep in mind when selecting its location. A border of spring flowers around it and some goldfish within it may add a delightful note to a garden.

Homemaking Tips

Butter can be kept in the freezing compartment of a refrigerator or in the home freezer for several months in the original package without danger of spoilage.

* * *

Here's a new sandwich combination: salami, Bermuda onion, ripe olives, tomato, sharp process cheese, Swiss cheese and cucumber. It's really hearty.

* * *

Cream cheese can be tinted with food coloring to make it a more appealing sandwich filling to children.

* * *

For packed sandwiches, wrap lettuce separately to be added just before the sandwich is eaten. It'll be crisp this way.

* * *

Three glasses of milk a day help promote a healthier nervous system.

Here's How to Fix That Warped Door

DO . . . keep a warped door out of service for at least a day—and probably longer—if you hope to do a good job of straightening it.

DO . . . remove the door from its hinges and place it across 2 sawhorses or other similar support.

DO . . . place the bulging side of the door face up, with the sawhorses under the ends.

DO . . . put heavy weights on the bulging part and leave them there for 24 hours.

DO . . . inspect the door after that period to see whether it is straight; if not, replace the weights until the straightening process takes place.

* * *

DON'T . . . be impatient if the warp proves stubborn; 3 or 4 days sometimes are needed.

DON'T . . . on the other hand, leave the weights on the door once it has been straightened, otherwise the door will bulge on the other side.

DON'T . . . fail to consider the possibility of giving added strength to the newly-straightened door by forcing 3 glued wooden dowels into drilled holes in each end of the door.

DON'T . . . forget that a door warps because moisture has been absorbed by the wood, so be certain that all parts of the door, including edges and ends, are painted or varnished.

Buttermilk is an excellent cooking ingredient as well as a good drink. It gives extra lightness to cakes, pancakes and other baked goods.

Apply Brakes to Home Mortgages

Savings Less Than Loans Brings Tighter Limits

By SAM DAWSON

NEW YORK (AP)— Home builders will find mortgages a little harder to come by from now on.

The loan end of the savings and loan business has been growing faster than the saving ends. The government thinks they should be in balance. So the federal home loan banks are being told to stop handing out new credit to their 4,200 members.

People are still saving money. The Department of Commerce reports total personal savings running at an annual rate of 16½ billion dollars. But a year ago the savings rate was 18¾ billion.

More Income

The significant thing in the view of the government is that while savings totals were falling personal income totals were rising. So were consumer spending and debt accumulation. Although some people are still saving money, people as a whole are saving a lower percentage of their incomes after taxes than they were doing last year when incomes were lower.

New investment money—whether for mortgages, for corporate securities, for loans to business or to government—comes from savings both personal and corporate. These may be deposited in banks, go to insurance companies or pension funds, or be invested in government or corporate bonds.

Industry and government draws on these accumulations of savings to start new businesses, expand plants, build highways and schools.

Influences Interest

When the demand for such investment funds increases faster than new savings are adding to the supply, interest rates go up. And people needing money to build homes or factories go to the banks for loans.

The 11 federal home loan banks have been lending money to their members savings and loan associations about 1¼ billion dollars in such loans are now outstanding. These associations furnish more than a third of the financing of the new homes being built around the nation.

The Federal Home Loan Board says the associations have made around six billion dollars worth of new mortgage loans this year, a gain of 44 per cent over the amount lent in the same period of 1954.

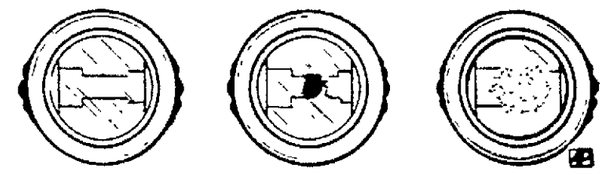

The associations are increasing their assets, too. In the first half of the year new savings paid into the associations came to 2½ billion dollars, a gain of 14 per cent over the like period of 1954.

But since new savings have been rising less slowly than new mortgage financing, the home loan banks have been lending the associations money to be handed out in turn on new mortgages.

In the last month the central banks have been raising their interest rates to put a damper on this. The highest now is 3½ per cent, as charged in New York and San Francisco.

And now the board is telling the 11 district banks to see to it that the associations lend only out of new savings and loan repayments. This rule won't apply in such emergencies as making loans to those whose property was damaged in the recent floods.

How to Read a Fuse

A FUSE PLUG with an "H" shaped filament as shown at the left makes it easy for you to diagnose your trouble when the fuse blows out. When you look through the glass cover and see merely the center of the filament melted away as shown in the center sketch, it means an overloaded circuit. When the glass cover is burned as shown at the right, call an electrician—you have had a short.

If you tire of the accessories in your home, try rotating them. Store some of them away in cupboards and bring out others periodically to add interest and freshness to a room.

India estimates there are eight million bullock carts in the country.

Entered at the Postoffice in the city of Dixon, Illinois, for transmission through the mails as second class mail matter.

By mail in Lee Ogle, Bureau and Whiteside counties $6.00 per year, $4.50 six months; $2.75 three months, $1.50 per month except in communities where Telegraph carrier service is maintained. Elsewhere in Illinois and anywhere in the United States $12.00 per year, $7.00 six months, $4.00 three months, $1.75 per month. All mail subscriptions strictly in advance.

In Dixon, by carrier, 35c per week or $18.20 per year, payable strictly in advance.

Single copy, 5 cents.

We Learn the Hard Way

Apparently one bit of World War II history—the question of why the Western nations did not enter Berlin before the Russians—is destined to be the subject of international debate for many years to come.

Sir Winston Churchill has now re-opened the issue, contending that the United States blocked his plan to seize Berlin first. Russian capture of the German capital vastly increased postwar difficulties between East and West, he argues.

On this latter point, he probably will not be seriously contested by any American who played an important role in the key military decisions affecting Berlin in 1945. As for the rest of his argument, it reflects the basic differences in outlook toward the war which existed then between Britain and the U. S.

It is a criticism of President Eisenhower, then supreme Allied commander in the European theater. For Mr. Eisenhower wrote General Marshall, at that time U. S. army chief of staff, that "Berlin itself is no longer a particularly important objective."

The general's principal strategy was to thrust across central Germany to a union with Russian armies at the Elbe river, thus slicing the nation in two. He was endeavoring to strike the enemy at his weakest point.

The meaning of this strategy was that the United States, as always during the war, was committing itself to decisions it hoped would lead toward military victory at the earliest moment with the least possible loss of life. The chiefs of staff, President Roosevelt and the congress were in support of this general plan.

No person could imagine that General Eisenhower, General Marshall or anyone else concerned in shaping that strategy for Germany had any thought of favoring the postwar plans of the Russians. They were simply devoted to getting the war over.

The British, on the other hand, as always during the war, looked ahead to the political prospects of postwar Europe. Sir Winston correctly foresaw the danger of allowing Russia to slash too deeply into Germany, and particularly to ring Berlin with Soviet forces.

We thought of pure military triumph. The British gazed beyond to war's political aftermath.

The events of the Cold War have made Sir Winston look like a fount of wisdom on these issues. But it must be remembered that as recently as World War II, we were not well schooled in the ways of world politics. We were green. We abhorred war, and, once in it, we wanted only to have it over and done with.

We have learned much about world politics since then, for leadership has been thrust upon us. Sir Winston should understand that it serves the cause of freedom poorly to dwell now upon the errors of our earlier inexperience.

What counts today is that we have shown a tremendous capacity for growth in understanding of world affairs in the short space of ten years.

Questions and Answers

Q—Has the Liberty Bell been rung since it was cracked in 1835?

A—It was rung slightly on April 16, 1917, when the war with Germany was announced and on June 6, 1944, when the Allied Forces invaded the continent of Europe.

* * *

Q—Are men more susceptible to heat stroke than women?

A—Generally speaking men are three times more susceptible to heat stroke than women.

* * *

Q—When was the last time that we had three living ex-presidents?

A—At the beginning of President Grant's first term in 1869, when Millard Fillmore, Franklin Pierce and Andrew Johnson were still living.

* * *

Q—What was the first use made of asparagus?

A—It was first used as a medicine, and then as a food in the 17th century.

* * *

Q—What is the average age in the 84th Congress?

A—It is a new "young" of 52.2 years as of Jan. 1, 1955.

Pure solder is half tin and half lead.

A Saturday Night Historical Notebook

Woosung, 'Haven of Rest'... Three Captains... Settle by a Railroad... Busy Trading Center

By ROGER THOMPSON
Telegraph Staff Writer

Some time ago, while we were printing the Urquhart diary, the village of Woosung celebrated its centennial with a picnic and program at the Woosung School. Today we'll go into the settlement and early days in the village.

Roger Thompson

To begin with its name, the village was called Woosung after a town in China with the same name, meaning in Chinese, "Haven of Rest." The community, situated in rich Illinois soil, got its Oriental designation because its founders were three sea captains who had traveled extensively in that part of the world. Legend has it that the captains wanted to call the village Shanghai, but the Illinois Central Railroad objected, and the name Woosung was chosen.

The railroad was the key to the settlement of the village, as it was in so many cases in the early days. Woosung was one of the communities established along the railroad soon after it was built.

The Illinois Central was opened between Freeport and Dixon in 1853 and two years later, the captains, Harvey Roundy, Samuel A. Brimblecom and John H. Anderson, founded the village. It was on the advice of the railroad's president that the men decided to come to this area - at that time "The Far West."

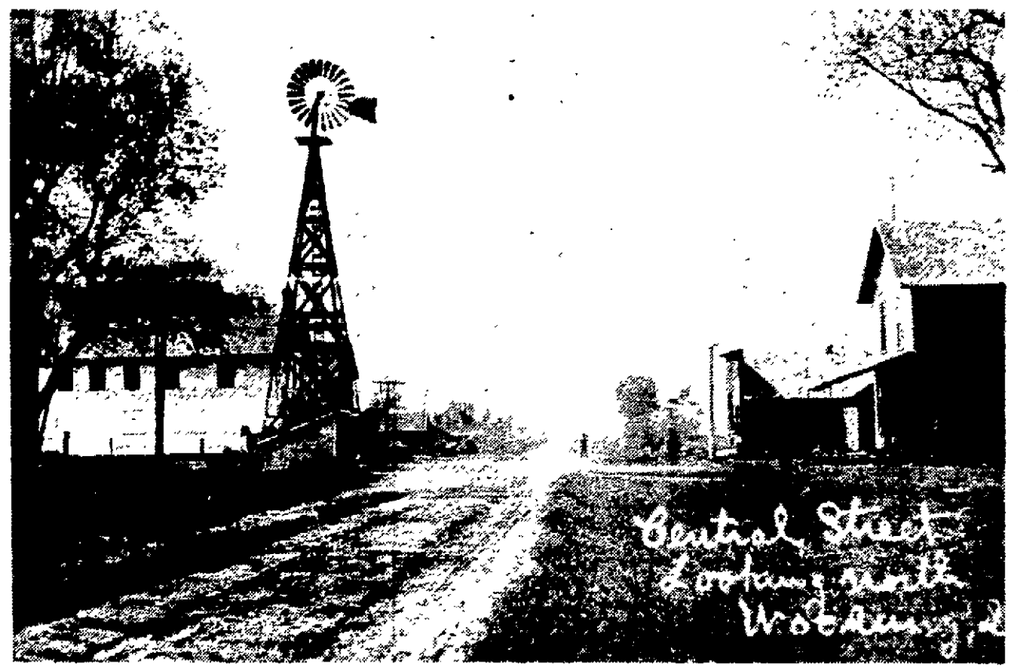

The first survey was made in June, 1855, and had the railroad for its eastern limit and the Lee-Ogle County line for the south side. Its area included one-half square mile, measuring a mile along the railroad and extending west to a line one-half mile from the tracks.

The first house—a structure for the men working at the site—was built in 1855, and several other buildings started. The post office was established in December of the same year. By the next year the village had a railroad station, and Capt. Anderson was the first agent. His son, Charles, became the telegrapher.

Within a few years, the village had a school for about 70 children. The first church (United Brethren) was built in 1867 for $3,000. Ten years later a group of citizens bought it and made it a non-denominational house of worship.

The village had grown quickly. By 1867, about 150 persons lived there. In addition to the Brethren, a Society of Methodists and a Baptist group were formed. During 1855, 629,403 pounds of freight had been received at the Woosung railroad station, and 65,614 pounds shipped from it. Residents shipped 1,049 bushels of wheat. In 1867, 47,485 bushels of corn and 20,350 bushels of oats were shipped.

By that time the village had what must have been a strange sight to the prairie traveler. It was a grist mill (common enough in those days) but it was powered by a large windmill after the Dutch fashion. Its builder, Charles Rummell, found that the winds of Illinois are not as reliable as those in Holland, and the project was doomed to extinction.

THE SCENE ABOVE is of uncertain date, but it shows the main street in Woosung at least 60 years ago.

In the days when a few miles to travel meant a long time on the road, Woosung became a busy trading center. It gained a large general store and another smaller one. A cobbling shop was established, along with a blacksmith shop, a butcher shop, a wagon shop, an elevator and feed mill and a farm implement store. At one time there were two ice cream parlors, a boarding house, well drillers, barbers, carpet weavers, butchers, windmill and pump men and truck gardeners.

The second floor of the big general store was a hall used for dances, plays, musicals, suppers and other social meetings. A literary society met in the school, and Modern Woodmen of America had an active lodge.

The old church was a popular meeting place, but in 1898 it was struck by lightning and burned. Through donations and the insurance, the present church was built in 1900.

The highway (U. S. Rt. 52 and State Rt. 26) was built through the village in 1924. In 1929 the old school burned, and another built to replace it.

The centennial history booklet—prepared by Marian Morgan and Gladys Shore—comments on the present-day Woosung:

"Woosung is growing again. There are no empty residences. A number of houses have been built and occupied in the last few years, three of them in 1955.

"Sunday school and church services are being held regularly.

"Most of the homes in Woosung are modern and equipped with electrical conveniences."

* * *

One of the Rock River Valley's most prominent historians died Tuesday night of heart disease. Funeral services for John H. Hauberg, 85, Rock Island, were held Friday.

Mr. Hauberg will be remembered for his tireless work in the discovery and preservation of information about Indian life in this area, as well as about early pioneers of Rock Island County.

His contributions made possible the Hauberg Indian Museum in Black Hawk State Park, Rock Island. In 1940, he founded the annual Indian powwows held in that park each Labor Day.

Mr. Hauberg was honored on his 85th birthday on Nov. 22, 1954, at a dinner. At that time Augustana College distributed a book dedicated to him as "The John H. Hauberg Historical Essays." The book contains articles by six of the nation's outstanding historians.

The Doctor Says

Hardening of Arteries Is Result of Calcium Deposits

By EDWIN P. JORDAN, M.D.

Written for NEA Service

Mrs. M. and many others have asked for another discussion of hardening of the arteries and what can be done for this condition which is diagnosed so frequently, particularly in the later years.

In discussing it briefly, I should like readers to know that arteriosclerosis is the medicalterm which means the same thing.

There is also a condition known as atherosclerosis, which is closely related, and involves deposits in the walls of the arteries of fatty-like substances rather than calcium which is the principal chemical involved in arteriosclerosis.

Typical hardening of the arteries is the result of slow deposits of calcium in the walls of these blood vessels. The deposits are not even and some parts of the blood vessel walls will have more calcium in them than others.

HOWEVER, these calcium deposits make the walls of the arteries gradually harder, stiffer, and more brittle. Until a great deal of calcium has been deposited, however, the blood vessels remain reasonably elastic and serious difficulties do not arise.

What causes this deposit of calcium and the simultaneous degeneration of the walls of the arteries? Why do some people develop hardened arteries so much earlier in life than others?

Such questions are hard to answer. Certainly the tendency to develop arteriosclerosis early in life runs in some families more than in others.

Also, the wear and tear to which arteries are subjected during life probably plays a part in the speed with which arteriosclerosis develops.

Infections, disturbances of hormone secretion, overeating, and kidney disease, probably also are concerned with the development of this process. Probably eventually the cause will be traced to changes in the internal chemistry, perhaps brought about by alterations in the hormones.

SINCE ARTERIOSCLEROSIS is not really a disease, but appears to be the result of many factors, including those inherited as well as those encountered during life, the symptoms are not alike in all people.

Symptoms may come from local disturbance of circulation in different parts of the body, depending on which arteries are most seriously affected.

Thus, in the heart, the symptoms may be those of angina pectoris, in the brain apoplexy, and in the legs cramp-like pains.

THE TREATMENT OF arteriosclerosis depends on which arteries are most seriously involved.

Special diets as so far devised probably have little effect on the underlying process. For this reason, there is a great deal of individual variation in treatment and general rules cannot be outlined.

The outlook for life and health varies in the same way. In other words, arteriosclerosis blood vessels if located in less vulnerable spots need not interfere with life or health for many years; severe hardening of the arteries in a vital location can be serious.

So They Say

If I had really been educated before I left this country and known what Communism really was, I would have been killed on the Korean battle fields rather than become a prisoner of war—Otho G. Bell, turncoat GI, returns to U. S.

* * *

If we come to space travel, and we are on our way, it means that it will require a global effort. All of the countries will have to participate, and there will be no worries or time for war because this will be a full time project.—Dr. I. M. Levitt, satellite expert.

* * *

Neither we nor the free world must lull ourselves into a "Little Red Riding Hood" belief that because the wolf has put on grandmother's cap and gown, his teeth are any less sharp or his intentions any less menacing.—Sen. William Knowland (R-Calif) warns against any letting down as result of Geneva conference.

* * *

We came out of China without even a goodby for the Chinese.—William A. Cowart, turncoat GI returns to U. S.

What's Right

When a club member telephones to ask if you are going to a meeting, you don't have to go into a long and involved discussion of why you aren't going if your answer is "No." "I'm sorry. I am not going to be able to make it" is enough.

Remember, you are probably just one on a long list of names the member has to call.

Ruth Millett

What Was Good Enough for Grandma, Won't Do Today

Some of my women readers are mad at me, downright name-calling mad.

The reason for their angrily written protests is that a few weeks ago I wrote a column suggesting that maybe we women ought to pay less attention to our husbands' faults and be a little more appreciative of their good qualities.

I brought up Grandma and how she used to speak approvingly of a husband if he were a good provider, whereas today's wives don't give a man much credit for earning a good living for his family.

And I mentioned that Grandma was proud to have a good family man who liked to stay at home when his day's work was done. Whereas today a wife regards a husband who likes his easy chair as an unfeeling brute who never wants to take her anywhere.

The letters of protest had one thing in common. Most of them said in effect: "Never mind what Grandma was contented with, today we women have a right to expect more than Grandma got out of marriage."

WE ARE GETTING MORE OF SOME THINGS

But if by expecting more we are getting less, just how smart are we women of today?

Of courses we are getting more of some things. We are getting more divorces, more juvenile delinquency, more criticism aimed directly at us as wives and mothers. And more frustrations because we don't get all the things we have come to believe we have a right to expect.

But how much real security do we have, how much assurance that our marriages will really last "until death us do part," how much satisfaction do we get out of living?

What's so smart about figuring we ought to have a lot more than Grandma had if we end up by getting less than she of the things that really matter to a woman?

If we regard Grandma as dumb to be happy with what she had, then maybe we're smart to be unhappy because we never seem to get all we think is due us.

In Hollywood

By ERSKINE JOHNSON

HOLLYWOOD —(NEA)— Exclusively Yours: Movie lover joins the "Marty" league of film realism in the latest eyebrow lifter from Hollywood. Cornel Wilde shelves the romantics for the role of a cheap gangster with a speech impediment — stammering — in "Storm Fear," and he's beaming: **"I'm not the lovely hero—I'm a crumb."**

It's his own movie, directed by himself, with Dan Duryea and Jean Wallace. Now loving it up with Jane Rusell in "Tambourine," he told me:

"Hollywood's usual dream world stuff has lost some of its appeal. Now audiences are interested in people as people instead of as heroes and villains. It isn't an arty film but it's emotional rather than physical violence."

HE'S JUST AS HAPPY about "Tambourine," too. He says: "It's one of the three best roles I've ever had." The other two: "A Song to Remember," and "The Greatest Show on Earth."

* * *

Nancy Kelly will repeat her Broadway hit in Warners' film version of "The Bad Seed." . . . Susan Hayward's dates with Donald "Red" Barry are becoming more frequent. . . . "The Life of Sarah Bernhardt" is a hush-hush 1956 project for the John Wayne-Bob Fellows company. Batjac Prod . . . Gorgeous-as-ever Alice Faye visited hubby Phil Harris on the "Goodbye, My Love" set and told friends she's content in retirement. Phil owes NBC-TV a series of guest appearances but his movie acting career now has top priority.

THE WITNET: George Burns' gift suggestion for avid readers who have everything—a jar full of wet thumbs.

* * *

Jimmy Stewart is as amazed as everyone else about Charles A. Lindbergh's approval of the movie script based on "The Spirit of St. Louis," which occasionally strays from exact fact for dramatic power. Reports Jimmy:

"He realized that facts had to be flexible, but there was a lot of worrying before he gave it his official approval."

EAR WITNESS: Tim Hovey, the 10-year-old scene stealer in "The Private War of Major Benson," will star in an original screenplay, "Toy Tiger." The title is from Hovey's "theme song" in the . . . Charlton Heston starrer . . . Dick Bogarde, the British star of the J. Arthur Rank Mau Mau thriller, "Simba," is being considered for MGM's "Something of Value." . . . While he's in Paris for "Trapeze," Tony Curtis phones his little brother Bobby every week. Reports Bobby: "It's fun talking to him but I wish he'd call at some time when the Lone Ranger isn't on television."

* * *

Telegram to Universal-International from a Texas theater owner about business on Audie Murphy's "To Hell and Back": **"Box office set all-time record. We even ran out of popcorn."**

* * *

MGM just signed a teen-aged look-alike version of Grace Kelly—15-year-old Broadway actress Judy Jordan. She has been seen on Jackie Gleason's TV show . . . Hy Averback's solution to the problems of theater owners with small screens—movies in "Semi-Scope."

Home Adviser Pilgrim Has Membership Drive News; Cooking Hints

By JUNE PILGRIM
Lee County Home Adviser

Monday, Sept. 19, is the kick-off drive for launching memberships in Lee County Home Bureau. Vice chairmen and members of each of the 23 organized units will be cooperating in telling the story of why they are Home Bureau members and why other women should belong to this professional organization of homemakers. Many present members believe that it is of vital importance to them to belong, thereby they "take off" time or devote time to keeping themselves educated in the matter of homemaking. What is more important to any nation than the quality of its homes?

June Pilgrim

Home Bureau, which sponsors the University of Illinois extension program in Lee county, also believes in being vitally interested in public affairs and legislation which also affects the home. It can be all summed up in the motto, "the home is the center of every woman's world, but not its circumference.

Mrs. Charles McCarter, Harmon, county vice president, has been very busy making plans for the September 19 kick-off meeting as well as the report-back meeting, Sept. 30. Both meetings will be held in the Farm Bureau building, Amboy, beginning at 1:15 p. m. Mrs. McCarter has been assisted by Mrs. Elmer Peters, Ashton, and Mrs. Warren Friedrichs, Dixon.

The Sept. 30 report-back meeting will honor all new members gained during the membership drive as well as those members joining the organization since last year's drive in September. This meeting will explain the organization to the new members. Slides of activities will be shown by the home adviser with recreation and tea following.

Good Cakes

When the cool days come as they recently have, lots of folks take a renewed interest in spice cake and gingerbread. Why not fix your own spice cake mix for this fall or in the winter. It is simple, easy and makes a good sized quantity for that large family who finds commercial mixes costly and also that they don't make a very large batch.

This recipe is based on 1 box of cake flour. Thus you do not need to sift the flour before measuring. Store this mix in a dry covered container at room temperature. It will remain good for several weeks. It will make 23 cups or enough for 8 or 10 averaged sized desserts. This mix was developed in an experimental cookery laboratory at Purdue university.

Use one box or 2¾ pounds of cake flour, 8 cups sugar, ⅓ cup baking powder, one tablespoon salt, 2 tablespoons cinnamon, 3 tablespoons allspice, 1 tablespoon cloves, 1 tablespoon nutmeg and 3½ cups shortening. (The type that can be stored at room temperature.)

If you have lard and wish to use it, it will require the mix to be stored in the refrigerator. Because a cup of lard is heavier than a cup of hydrogenated shortening that has air in it, you use 3 cups of lard rather than 3½ cups shortening.

Mix, then sift dry ingredients together 3 times into a large mixing bowl or dish pan onto a square of paper. Cut in shortening, blending well until mixture resembles corn meal. Store in a covered container.

To measure the mix: pile it into a cup and level off with a spatula.

For layer cake: Use 3 cups of mix; add 2 eggs to it, beat 1 minute, add ½ cup milk and beat two more minutes. Pour into 2 waxed paper-lined 8 inch cake pans. Bake 20 to 25 minutes in a 375 degree oven. (If using an electric mixer, add eggs and milk all at once and beat on low speed 5 minutes.)

For spicy apple cake: add 2 eggs to 3 cups of mix; beat 1 minute, add 1½ cups diced, pared apples, 1½ cups raisins and beat 2 minutes. Pour into a greased 8 inch square pan. Bake 30-40 minutes in 375 degree oven.

For surprise date bars: add 2 eggs, ½ cup brown sugar, 1 cup chopped dates, 1 cup chopped nuts to 1 cup of above mix. Blend well, spread in a greased 8 inch square pan. Bake in 350 degree oven 25-30 minutes. Cut while warm. Makes 2 dozen bars.

For steamed apple pudding: add 2 eggs to 3 cups of mix. Blend thoroughly. Add 2 cups of pared, diced apples and mix well. Fill greased custard cups ⅔ full. Steam for 35-45 minutes. Makes 8 puddings.

For spice krispies: Add 1 egg to 3 cups of mix, blend well. Roll very thin on a lightly floured board. Cut with a floured cooky cutter. Bake on a greased cooky sheet in a hot oven 400 degrees 5-8 minutes. Makes 48.

Thanks to Rural Youth

We're proud of our Lee County Rural Youthers. Even though their number isn't large, they recently spent $45 from their treasury for the purchase of machinery type of scotch-lighting. The group recently met at the junction of Rt. 26 and 30 and offered to attach the material to pieces of machinery which might appear on either one or both of these busy roads. Boys assisting with the attachment were Dick Lohse, Jack Edmundson, Duane Six, Richard Johnson and Eugene Pohl.

The boys were most interested in the reactions that farm folks had to "safety" as well as getting acquainted with more Lee County folks. Safety of this type has been a project of Rural Youth groups throughout the State of Illinois.

Food Hints

More and more folks are finding gel-cookery foods easy to prepare ahead of time, nutritious generally and not so high in calories. Here are a few hints: did you know that when there is one tablespoon or more sugar in a recipe, it is not necessary to soften the gelatin in the liquid. Mix the gelatin thoroughly with the sugar (dry) and then add liquid. The sugar separates the gelatin granules which are then readily dissolved in the liquid.

Whenever there is less than one tablespoon of sugar with which to mix the gelatin — then you need to soften or soak it first in cold water.

When making gelatin sponges or snows — you can add the egg whites unbeaten and then beat the "whole" snow mixture at one time. It will give the same light, airy texture. If you do add beaten egg whites, fold them into the gelatin mixture and you will keep the air in by saving part of the sugar called for in the recipe and beating it into the egg whites. This makes a type of meringue which folds more evenly and thoroughly throughout the whole gelatin mixture.

SOCIETY NEWS

Oregon Man Wed in St. Louis

Miss Buchold in Lace Over Satin For Fall Nuptial

OREGON — Greencastle, Ind., is the first home of newlyweds, Mr. and Mrs. William Emmerson Pickering. Mrs. Pickering is the former Shirley Jean Buchold, daughter of Mrs. Albert H. Buchold and the late Mr. Buchold, St. Louis, Mo. Ogle County superintendent of schools and Mrs. Wilbur Pickering, Oregon, are the bridegroom's parents.

White flowers, greenery and lighted tapers were used in decorating Normandy Presbyterian church, St. Louis, for the Sept. 3 wedding. Rev. Dr. Grant O. Jennings officiated at the evening, double ring ceremony.

Given in marriage by her uncle, Dolph Wall, the bride was lovely in a gown of white chantilly lace and tulle over satin. Pleated tulle outlined the wide scalloped neckline of the elongated bodice. The bouffant skirt ending in a chapel length train featured deep flounces of pleated tulle and wide appliqued bands of lace.

Fingertip Veil

The bride's fingertip, illusion veil was held by a bandeau of pearls. She carried white orchids and lily of the valley.

As maid of honor, Miss Lois Thayer, Collins, Ohio, wore a frock of blue tulle and lace over taffeta.

Lewellyn Genung, Oregon, served as best man and Kenneth Kohlstedt, Springfield, and Willard Wright, Chicago, ushered.

The bride's mother wore a blue lace gown and the bridegroom's mother wore green taffeta, the bodice of her frock being graced with sequins and pearls. Both mothers wore white orchid corsages.

Church Reception

A reception was held in the church parlors, immediately following the ceremony.

The newlyweds selected the east as their honeymoon destination.

A graduate of Mary Institute, St. Louis, the bride has won state and regional contest fame as a concert pianist. She is a sophomore at DePauw university. A DePauw senior, the bridegroom graduated in 1952 from Oregon high school. His fraternity is Sigma Alpha Epsilon.

Honored In Oregon

The Wilbur Pickerings entertained 50 friends and neighbors, Sept. 8, in their Oregon home, honoring the newlyweds.

MRS. PICKERING

Wed 40 Years

The T. J. Helbigs, Sublette, will observe their 40th wedding anniversary Sept. 20. There will be no large celebration due to Mrs. Helbig's health. Mr. Helbig is in his 43rd year as ICRR agent in Mendota.

Newborn porcupines have quills that can be raised into offensive position within an hour after birth.

Gamma Mu Plans for Fall Rushing Party

Members of Gamma Mu chapter, Beta Sigma Phi sorority, held their first meeting of the fall season Tuesday evening in Loveland Community House. Plans were made for the fall rushing party which will be held in the near future. All members were urged to attend the dinner dance, Oct. 1, at Plum Hollow golf club. This is an event for all three chapters of Beta Sigma Phi in Dixon.

Mrs. Robert Shinnick presented the interesting program using as her theme, "Introductions and Invitations."

Cards were played following the business meeting. Refreshments were served by Mesdames John Shular, Robert Hess, Orville Gearhart, Donald Steder, Robert Wentling and William Herzog. Mrs. Shinnick, chapter president, presided at the table which was decorated in a fall theme.

Great Books

The Great Books discussion group will begin its new season at 8 o'clock Tuesday evening, Sept. 20, in Loveland Community House. Everyone interested is invited to join the group.

SOUTH DIXON CLUB

The South Dixon Community club will meet with a 1:30 o'clock dessert luncheon Wednesday, Sept. 21, in the home of Mrs. William Remmers, Rt. 2, Oregon.

OES Parlor club, 1:30 o'clock dessert luncheon.

Ladies of GAR, home of Mrs. Viola Strub, 2 p.m.

Home Bureau Membership kick-off drive in Farm Bureau Amboy, 1:15 p.m.

GOLDEN RULE CLASS

The Golden Rule class of St. Paul's Lutheran church will meet Tuesday, Sept. 20, with Miss Caroline Reineking at the Warner cottage, Grand Detour. There will be a 6:30 o'clock scramble supper with dessert and coffee furnished. Hostesses will be Mrs. Alois Degwiler and Miss Alma Koester.

St. James Aid Society Enjoys Dinner, Meeting

Ladies of the St. James Aid society were entertained Sept. 7, in the church with a noon scramble dinner. Mrs. Wiley Shippert and Mrs. Earl Burket were hostesses. The meeting opened with a song and Mrs. Burket led in prayer. Mrs. Robert Doty gave devotions.

Thank you notes were received from Mrs. Clarence Bothe, Mr. and Mrs. Roger DeWerff, and Mr. and Mrs. Charles Rex.

A short discussion was held on serving a banquet. It was announced the Ladies class will have a breakfast Sept. 20.

After the meeting, Mrs. Earl Burket conducted a stork game this being followed with a pink and blue shower for Mrs. Charles Rex and her new daughter.

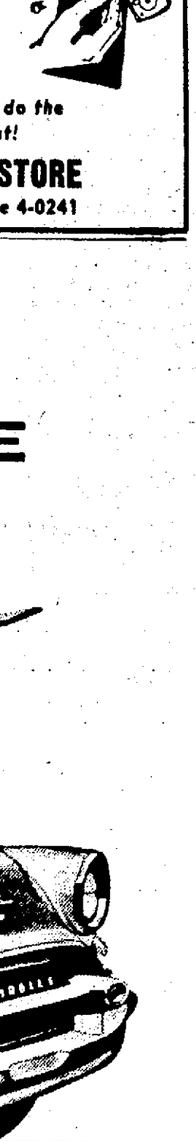

The next meeting will be held in the church with Mrs. Leon Burket and Mrs. Albert Bothe as hostesses.

Ike Asks Sports Figures To Physical Fitness Meet

President Feels Sports Has Role in Health, Delinquency

By MARVIN L. ARROWSMITH

DENVER (AP)—President Eisenhower today invited 139 sports world figures, top educators and leaders in other fields to a Sept. 27-28 conference here on building the physical fitness of America's youth.

The purpose of the conference is to get more youngsters out of the spectator grandstands and into active participation in athletics.

The President has expressed concern that lack of such participation is responsible in part for increasing juvenile delinquency, and for failure of so many young people to measure up to selective service requirements.

Nixon to Preside

As announced previously, Vice President Nixon will preside at the two-day conference at Eisenhower's vacation headquarters here. The President will receive the conferees' recommendation and speak at a dinner concluding the sessions.

Those invited to the conference from the sports world include:

Bobby Jones, the former grand slam champion of golf; Gene Tunney, former heavyweight boxing champ; Rogers Hornsby, one-time baseball great and now director of youth activities for the Chicago Park District; baseball Commissioner Ford Frick; Clarence "Biggie" Munn, athletic director at Michigan State University; Kenneth L. Wilson, president of the U. S. Olympic Committee; and Army Maj. Sammy Lee, Olympic diving champion.

Educators, Too

Among education leaders invited are Dr Arthur S Adams, president of the American Council on Education, and Dr. Lawrence D. Haskew of Oneonta, N. Y., president of the American Assn. of Colleges for Teacher Education.

Invited among others from the news gathering field are:

Robert McLean, president of the Associated Press and publisher of the Philadelphia Bulletin; Frank Bartholomew, president of the United Press Assn; Philip G Reed, assistant general manager of International News Service; Palmer Hoyt, editor and publisher of the Denver Post; and Jack Foster, editor the Denver Rocky Mountain News.

On the list form the field of government are, among others, FBI Chief J. Edgar Hoover; Secretary of Welfare Folsom; U. S. Surgeon General Leonard Scheele; Maj. Gen. Lewis B. Hershey, Selective Service director; and Samuel Brownell, U. S. education commissioner.

Broad Coverage

Murray Snyder, assistant White House press secretary, said te list of those invited "represents a very broad coverage of organizations and specialized groups with an interest in the problems of physical fitness of the nation."

He added that many persons the President would like to have attend the conference "could not be invited due to limitations of meeting facilities" and housing accommodations.

Harvester Walkout Is Near End

CHICAGO (AP)—Early settlement of the 26-day strike of some 40,000 CIO United Auto Workers at 18 International Harvester Co. plants appeared in prospect today.

As bargaining sessions continued throughout the night, spokesmen for both sides said they expected an agreement to be reached later today.

Several UAW local union presidents have arranged for rank-and-file ratification meetings to be held Sunday in their home cities, indicating settlement was likely some time today. The company's plants are in 15 cities in six states, including four in Chicago.

The company has annuonced that it had conceded to many of the union's economic demands, including a 10 cent general wage increase plus 6— cent improvement factor raises for all hourly employes next year and in 1957 under the proposed three-year contract. Other proposals included a 26-week layoff pay plan patterned after that of the automobile industry, under which the company would donate 5 cents per man — hours worked to the layoff pay fund.

Also approved for highly skilled workers was an 18-cent raise, in addition to the general pay hike.

Barn Destroyed Near Rochelle; Loss $25,000

ROCHELLE —(Special)— Fire caused an estimated $25,000 damage Friday afternoon on the Everett Mullins farm about nine miles south of Rochelle. A new barn and cattle shed were destroyed, a silo damaged and several hogs killed.

Workmen building a foundation for a new silo reported the blaze shortly after 2 p.m. Rochelle, Compton and West Brooklyn fire departments fought the fire into the night.

Cause of the fire was not determined, but firemen said it might have been defective wiring.

The exact number of hogs killed was not known. The barn also contained grain and farm machinery which was destroyed.

Neighbors kept watch during the night, on a volunteer basis, to sound the alarm if the still-smouldering ruins would be revived by wind and endanger the nearby farm home.

The barn was leveled, and the silo damaged. Silage was spoiled. Farmers were able to remove cattle from the shed.

The new barn had been built to replace another destroyed by fire three years ago. The first fire was caused by spontaneous combustion.

Dixon Legion Picnic To Be Held Sunday

The annual picnic of the Dixon American Legion is to be held Sunday at Mason Acres White Rock. Legion members their families and Legion Auxiliary members are asked to attend.

Members are to bring table service, meat, bread and a dish to pass. The post will furnish coffee and soft drinks for the children. Rides and games will be provided for the children. In case of rain the picnic will be held in the Legion headquarters.

The event will start at 10:30 a.m.

KSB Hospital

Admitted: Miss Jean Brown, Mrs. Sue Anderson and Mrs. Carrie Belcher, Dixon; Charles Black, Amboy; George Baumgerdt, Milledgeville, and Mrs. Theresa Quest, Ohio.

Discharged: Leonard Heflev, Oregon; Miss Jenlee Knoll, Kenneth Floto, Dixon, and Mrs. Mary Jean Gipe, Polo.

Alabama Uses New Law to Bar Student

ANDALUSIA, Ala. (AP)—Alabama's new placement law, enacted to preserve segregated schools, was used for the first time Friday to disqualify a 6-year-old boy from attending a white school.

The Covington County Board of Education quoted the recently adopted act to exclude the son of a white farm wife from the grammar school at nearby Gantt, Ala., where the mother tried three times to enroll him.

There was no immediate comment from the chubby, sun-tanned mother, Mrs. Ruth Wheeler of Red Level, Ala. But before the board's decision was announced, she had said she would appeal to "higher authorities" if necessary to get the boy, Troy Ammons, admitted to the white school.

The child's race was left unmentioned by the board in a prepared statement announcing its decision. Neither was it discussed at a stormy public hearing before the school board Tuesday.

The reason for the complaints was never made public.

Other parents had boycotted the Gantt school since the issue arose Sept. 2, the first day of school. Only four of the 39 pupils registered at the school attended class Friday, the board said.

Fire Sweeps Barn Near Rock Falls

ROCK FALLS —(Special)— Fire swept a frame barn and several smaller buildings on the S. K Wenger farm two and one-half miles southwest of Rock Falls today causing damage estimated at $30,000.

Three Rock Falls firemen suffered burns fighting the blaze which raged out of control for almost three hours. It began at 7:18 a.m. and Rock Falls volunteer and regular firemen used four pieces of equipment to quell the blaze The farm is tenanted by Daniel Pope.

Lost in the blaze was the barn, 2,700 bales of hay, tools, 800 bales of straw, 800 bushels of oats, and five calves.

There was an estimated $5,000 damage to a modern milk parlor near the barn and damage to a nearby calf barn and machine shed

Firemen blamed the flames on spontaneous combustion The farm owner said 50 per cent of the loss was covered by insurance

The oats was contained in a steel rub near the barn but was consumed when the roaring blaze heated the steelframework Firemen had difficulty getting near the blaze because of the terrific heat and smoke.

The firemen injured were Frank Masini and Orville Thome of the Rock Falls volunteers and George Logan of the regular force. They were not burned seriously.

Recruiters Set New Hours Here

The Army recruiting office in the Dixon Post Office will have new hours beginning next week Recruits will be in the office each Tuesday and Friday from 9:30 a.m to 5 p.m.

Interested persons also may leave their names at the post office on other days, and the recruiters will contact them

A light year is about six million million miles.

PRAYER OF THANKS FOR RELEASE OF SON—Fingering a rosary, Mrs. Addie Rigney, 77, offers a prayer of thanks after learning her son, the Rev. Harold W. Rigney, was among the first of the 22 American civilians to cross the Hong Kong border after release by Red China. Mrs. Rigney resides in Chicago. Father Rigney, 54, had been dean of the Catholic Fu Jen University in Peiping, China, where he had been since 1946. He was arrested on spying and sabotaging charges in July, 1951. (AP Wirephoto)

BABY BURNED, MOTHER, BOY HELD—Dennis K. Henry, six months old, gurgles happily in Philadelphia, Pa., Child Welfare Center although police said the baby had been burned on his right foot and was suffering from face cuts and back bruises. Under arrest were child's mother, Mrs. Shirley Henry, 20, and 18-year-old John R. Border, who Det. John Oates said admitted living with the young woman and said he burned the child on the foot and hit him several times "because he wouldn't stop crying." (AP wirephoto)

Call Experts To Capture Elephant

CHARLOTTE, N. C. (AP)—A crew of experienced elephant handlers from the Ringling Bros. and Barnum and Bailey Circus was expected here today to take charge of the hunt for the runaway Vicki a 6-year-old Indian elephant.

Louie Reed, head elephant trainer for the circus, was to fly here from California by way of Sarasota, Fla., Ringling's Winter quarters. Reed said Friday he plans to catch Vicki with kindness

The hunt for Vicki was called off Friday after the elephant wandered off from the area where she had stayed since leaving her amusement park home.

Vicki's owner, Jack Partlow, said the crowds chasing her have made Vicki nervous.

The big beast lumbered from her home at the amusement park last Sunday. She went across a heavily traveled boulevard and into a marshland where she remained until late Thursday night when she wandered back across the boulevard.

She last was seen in the vicinity of Douglas municipal airport in a clump of woods

Mecklenburg County police are keeping the crowds back. At one pomth more than 250 volunteers took part in the hunt.

After her week-long experience with the hunters. She has charged three men on different occasions.

Nine Hurt in Blaze at Fair

SAGINAW, Mich. (AP)—Investigators today sought to determine the cause of a flash fire that destroyed a wooden exhibition building on the Saginaw County Fair Grounds, injuring at least nine persons. Fair officials estimated damage at $400,000.

About 100 to 150 persons were in the building Friday when the fire broke out They ran screaming from the three exits as flames shot 150 feet into the air. Within 45 minutes the building had burned to the ground.

Most of the fair crowd of about 20,000 was at the other end of the grounds where the midway was located.

None of the injured was reported in serious condition

Illinois Plowman Places Third in National Contest

WABASH, Ind. (AP) John Daniels of Mulberry Grove in Bond County, Ill., placed third in the National Contour Plowing Contest at Wabash Friday.

Another Bond County plowman, Dale Schaufelberger of Greenville was eighth

The winner Eugene Holmes of Waldorf, Minn., used his own plow and a borrowed tractor. Ken Clark of Cherokee, Iowa, was second in the field of 12

A crowd estimated at more than 25,000 watched the contest.

Licensed to Wed

County Clerk Sterling D. Schrock Friday issued a marriage license to Earl R. Aument 20, and Hazel L. Sines, 27, both of Rock Falls.

Illinois Hog Raisers Win U. S. Honors

AUSTIN, Minn. (AP)— A Leland Ill., farmer and his sons have exhibited the grand champion individual barrow for the second consecutive year, a feat unprecedented in the National Barrow Show.

Oscar Anderson and sons displayed the No. 1 hog in the nation Friday at the show. Their winner was a middleweight Poland China. The 200-ound barrow was sold for $990.

In addition Anderson scored with the grand champion pen of three barrows and a reserve champion truck lot of 10 market hogs. For various winnings in the show in addition to the grand champion, the Andersons collected $1,011.

The reserve champion barrow was shown by Ben Behrens of Walnut, Ill. Behren's Hampshire lightweight was the champion lightweight barrow.

A group of Durocs shown by Sundean Farms of Gilson, Ill. took the reserve title in the pen of barrows division One of the top prices paid in the Duroc division went to Melvin Seik and son of La Moille Ill., who received $1,500 for their champion boar.

Russia Will Return Finn Military Base

MOSCOW (AP)—Premier Bulganin said today the Soviet Union has decided to return Porkkala military base, near Helsinki, to Finland

The Russians have held the 152 square-mile enclave under a 50-year lease as a military base since the Soviet Finnish armistice of 1944 The arrangement for the 20-mile-long peninsula on the Gulf of Finland 20 miles southwest of Helsinki, was confirmed in the peace treaty of 1947

After the Finnish-Soviet war of 1939-40, the Russians took Hango Peninsula on the Baltic southwest of Porkkala under a 30-year lease as a base, but swapped Hango in 1944 for Porkkala.

200 Girls at Dixon High Join G.A.A.

More than 200 Dixon high school girls have been accepted for membership into the Girls' Athletic Association for the current school year, according to Mrs. Lucy Roe, faculty advisor.

She said that more than 150 girls have indicated a desire to participate in basketball this fall. Other fall activities include archery, hiking and badminton.

Nearly 160 girls hiked to Lowell Park Thursday for a picnic supper Ellen Cross was student chairman for the event. The hiking program will continue every Thursday through October, Mrs. Roe said.

G.A.A. officers for the current year are: Jackie Ruppert, president; Julia Lesage, vice president; Carol Stouffer, secretary-treasurer; and Donna Villiger, Judy Gipson and Sandra, senior, junior and sophomore sports chairmen.

Wife of Prof Passes Bar

AUSTIN, Tex (AP)— Mrs Mary Joe Carroll, mother of a 19-year-old pre-law student in the University of Texas, was among 121 new lawyers admitted to the bar in Texas Friday.

Mrs. Carroll, the wife of University of Texas history Prof. Dr. H. Bailey Carroll, made the highest grade scored in the bar examinations

Thirty-seven applicants failed to pass.

Police Court

Justice of the Peace Edwin Merrick Friday afternoon fined Edwin M Wade, 24, Rt. 1, Sterling, $100 for disorderly conduct Chief of Police Earl Kelchner and Officer Robert McCoy arrested Wade about noon Friday on the complaints of four Dixon teenage girls. The complaints were for indecent exposure.

Sen. Kerr Says Benson Should Quit

By ROWLAND EVANS JR.

WASHINGTON (AP) — Sen. Kerr (D-Okla) said today Secretary of Agriculture Benson should be removed from office because he is "directly responsible" for the continuing decline in farm income.

Kerr made plain in an interview that he does not think President Eisenhower will fire Benson, long a prime target of Democratic criticism.

The senator said Benson's removal would require a "political operation"—a Democratic victory in next year's presidential election which, Kerr said, is the only hope for the nation's farmers.

Kerr declared Benson is "still playing hop, skip and jump with the welfare of the American farmer" and is trying "to hypnotize the farmers into thinking they're well off, as he's been doing for 2½ years."

Problem "Real"

The senator was commenting on Benson's news conference statement late Friday that the farm situation is a real problem but one which the Eisenhower administration inherited from previous Democratic regimes.

The agriculture secretary called for "serious, nonpartisan consideration" of the problem. Without naming names he deplored efforts of persons who, he said, are trying to make a "political football" out of the growing spread between falling prices farmers are receiving for their products and rising prices they have to pay for goods they must buy.

Benson has promised some "very specific" legislative proposals for Congress next January, although they are not expected to involve the administration's controversial basic shift from rigid to flexible farm price supports. Republican state chairmen agreed at a meeting here last week that declining farm prices are the biggest political barrier to the election of a GOP Congress next year.

"Basically Sound"

Benson said Friday, however, that he feels American agriculture is "basically sound," despite what he calls "the claims of the prophets of gloom and doom."

Questioned on that point, Kerr said Benson "has been making frequent announcements that farm prices were stabilized and the farm economy sound. Each time, reports of additional decreases have been announced simultaneously with his expressions of confidence.

"This proves that there has not been a time since he became secretary that he knew what he was talking about or if he did, was honest or sincere in his statement."

Benson conceded that he "miscalculated" last year in his repeated predictions that the post-Korea farm price decline had leveled off The miscalculation arose from the fact, he said, that farm production this year is running much larger than he had anticipated and this is helping pull prices lower.

Industrial Loss In Flood Zones $157 Millions

WASHINGTON (AP) — Industrial plants in the six Northeastern states hit by hurricane-flood last month suffered damage totaling some 157 million dollars, the Commerce Department reported.

In making this first preliminary estimate of actual losses, the department said Friday silt and debris are still being dug out of hundreds of plants but much equipment earlier reported destroyed has been found in restorable condition.

Connecticut, with 72½ million dollars worth, accounted for nearly half the total losses reported. This does not include damage to homes highways and other nonindustrial facilities.

Limited One-Way Plan in Sterling

STERLING—(Special)— A limited one-way street program to handle heavy east and west traffic through the city went into effect here today.

Fourth Street is for westbound traffic only and Third Street is for eastbound traffic between Broadway and Avenue D.

The original routing plan was to have extended from 19th Avenue to Avenue L but was shortened by the city council because of strong opposition.

Ogle, Bureau Road Projects On Bid List

SPRINGFIELD—(Special)— The seventh multi-million dollar bid opening on Gov. William G. Stratton's highway construction program for 1955 will be held here Sept.

Edwin A. Rosenstone, director of public works and buildings, said proposals will be opened on new work approximating $8,100,000.

The schedule includes 62 road and bridge building projects in 36 Illinois counties, including projects in Bureau and Ogle counties.

Jobs totaling about $620,000 are also up for rebidding following the rejection of previously submitted proposals that were too high.

The Bureau county project calls for 6.05 miles of bituminous surface treatment on gravel or crushed stone base course on FAS Rt. 218, located southeast of Tiskilwa

In Ogle county, bids will be received on a steel bear bridge on FAS Rt 81 over the Kyte river The project is located four miles west of Rochelle.

Dukes Roll to 38-0 Win at Washington

Break 9-Game Losing Streak

Offense, Defense Rugged In First Win Since 1953

By NORM JOLLOW
(Telegraph Sports Editor)

WASHINGTON—The Dixon Dukes, brandishing a hard running offense and a staunch defense, ended a nine-game losing streak here last night as they rolled to a 38-0 victory over a game but outmanned Washington Panther eleven in the season grid opener for both clubs.

The Dukes, who suffered through the 1954 season without a victory, got off on the right foot Friday night as they scored the first touchdown in nine plays after receiving the opening kickoff and were in front, 19-0 when the first period ended.

John Wooten and Bob Hamill stole the scoring honors as Wooten raced 84, 77, 44 and three yards for touchdowns and Hamill pranced

Statistics

	Dix	Wash
First Downs	8	4
Yards Rushing	446	37
Yards Passing	32	32
Passes Attempted	4	18
Passes Completed	1	3
Passes Intercepted	1	0
Penalties	40	20

eight and 59 yards to score. A seventh touchdown, a pass from Hamill to end Ken Mueller for 30 yards was nullified by an offside penalty.

Bob Hill, regular center, booted two extra points.

Mighell Key Man

But it wasn't all the scoring that proved heartwarming to the near 100 Dixon fans who drove here for the game. Offensive blocking and tough line play made the TDs possible.

Howard Mighell, a converted 195 pound lineman who was shifted to halfback this year, probably turned in the best individual performance of the night as a bull-like runner, as a key blocker and as a defensive giant from his linebacker slot.

Max Akerman, quarterback, directed the club with polish and kept the Dixon attack moving along the ground smoothly, mixing sweeps and plunges to keep the Panthers off balance.

End play by Gary Reeder and Mueller was outstanding both on offense and defense as was the line work by Bud Melvin, Dave Thomas, Dick Hess, Grant Wolford, Bud Rosbrook, Burl Stonecipher and Hill.

Panthers Game

Washington was a game outfit. The Panthers had plenty of spirit and kept plugging long after it was apparent that the Dukes outclassed them.

It took just nine plays for the Dukes to punch over the first touchdown with Wooten cracking over from the eight for the score. A 31 yard jaunt by Mighell climaxed a drive that started from the Dixon 25.

The Dukes regained the ball after four Washington plays failed to pick up a first down. With the ball on their own 45, the Dukes used three plays to rack up TD number 2. Hamill went two yards and Mighell picked up 11 yards on a reverse to the left. Then Wooten went the remaining 44 yards to score as he hit the left side of the line, roared through a big hole, was spun around by a linebacker, got straightened out with a shove by a teammate and outran the Panther secondary to the end zone.

Another four plays by Washington and Dixon had the ball on its own 41. Hamill picked up one yard on a plunge and then found a hole off right tackle and went 59 yards to score. Good blocking and a pulled in Washington defense got him past the secondary in a hurry.

Recover Fumble

Midway through the second period Dixon recovered a Washington fumble on the W-24. Hamill and Mighell picked up seven and nine yards and a five yard penalty put the ball on the W-3. Wooten then went over on a reverse and plunge.

In the third period, Dixon regained the ball four plays after the kickoff. With the ball on the D-16, Hamill failed to gain on first down. Wooten found a big hole at left guard, broke clear and with the help of a perfect block by Mighell at the W-25, went the route, 84 yards to paydirt.

The scoring ended late in the third period. Dixon gained possession, after a punt, on its own 17 yard line. A five yard penalty put the ball back on the 12 but Chico Contreras, left halfback, picked up 11 yards and Wooten went the rest of the way thanks to a key block by Mighell at about the W-35.

Dixon threatened one more time, midway through the fourth period when after two pass attempts failed, Reeder went back into punt formation on third down. It was a fake situation with Reeder scheduled to pass. No receivers were open so Reeder toted the ball 31 yards to the Washington 42. But four downs later, the drive petered out.

Dixon's defense, especially the line, was tough. Washington made just 37 yards rushing and 32 yards passing on three completions in 18 tries.

Pointing up Dixon's overall offense was the 446 yards gained rushing. One pass completion on four tries netted 32 yards.

Dixon line-up:

Ends — Reeder, Mueller, Peterson, Gerlach.

Tackles — Mueller, Thomas, Kubecka, Wolford, Campbell.

Guards — Rosbrook, Stonecipher, Hess, P. Akerman.

Centers — Hill, Brown.

Backs — Akerman, Hamill, Mighell, Wooten, Contreras, VanScoyoc, Schroeder, Furlong, Stephens, Frankenberry, Warkins.

Score by quarters:

Dixon	19	6	13	0	38
Washington	0	0	0	0	0

Scoring: Touchdowns — Wooten 4, Hamill 2. Conversions—Hill 2.

Heidenreich Scores 7 TD's As Byron Wins

BYRON—(Special)— The Byron Tigers, defending champions of the Rt. 72 conference, opened their league season here Friday night by rolling past Leaf River, 48-20, in a six-man football game.

Speedy Bob Heidenreich, Tiger left halfback who was the second highest scorer in the league last year while only a sophomore, stole the show by romping for seven touchdowns.

Heidenreich scored once on a 65-yard kickoff return and again on runs of 45 and 25 yards.

Richard Harding, Byron right halfback, scored the Tiger's remaining touchdown by sprinting 35 yards on a fake reverse.

The Tigers, playing their first game under Joe Parks, operated offensively with a straight T formation. Leaf River also used the T formation.

Byron rolled up five first downs, completed two out of seven passes, fumbled twice, recovered all six of Leaf River's fumbles and lost 15 yards by penalties.

Leaf River made three first downs, completed one out of five passes and lost about 15 yards by penalties.

There was no junior varsity game. The Byron yearlings play Monday at Leaf River.

In the only other Route 72 conference game, Stillman Valley unleashed a speedy attack to spoil Forreston's debut in football, 26-0.

Bob Bosecker scored twice while Larry Hurt and Ippen each tallied once as Stillman scored six points in the second, 14 in the third and six in the fourth. Karl Houston booted a double conversion after touchdown in the third period.

Good tackling by Forreston's green outfit kept Stillman in check part of the time, but poor blocking hampered the Cards own scoring chances.

Fight Tonight

HOLLYWOOD (AP)—Boxer Ralph Dupas of New Orleans, the No. 2 ranking lightweight challenger in the nation, is favored to defeat Mickey Northrup of Los Angeles in a 10-rounder at the Hollywood Legion Stadium tonight.

COLLEGE FOOTBALL

UCLA 21, Texas A & M 0.

Clippers in 14-0 Opening Victory

AMBOY—(Special)—The Amboy Clippers equaled their last year's record here Friday night by whitewashing Marseilles, 14-0, in a non-conference encounter.

The Clippers playing their first game under Coach Tom Good, used a straight T formation offense to score in the second and third quarters.

Quarter back Curtis Jones broke the scoring ice in the second period when he tallied on a quarterback sneak. Jimmy Donoho ran the extra point to give Amboy a 7-0 lead at the half.

Halfback Bob Choan, who sparked the Clippers' running attack, scored the final touchdown in the third period on a 10-yard end sweep. John Anderson converted.

There was no freshman-sophomore game.

Score by quarters:

Amboy	0	7	7	0	14
Marseilles	0	0	0	0	0

Touchdowns — Amboy: Jones, Choan. Extra Points — Amboy: Donoho (ran), Anderson (ran).

Ward Moves Into Finals of Amateur

RICHMOND, Va. (AP)—For nearly a week, Harvie Ward, 29, has endured the pressure that only Bobby Jones used to know when he was playing in the National Amateur Golf Tournament. Like Bobby, Harvie has reacted like a champion.

Today the pressure still is on him rather than on William Hyndman III of Philadelphia as they met in the finals of the 55th National Amateur.

Even Bill Booe of Bridgeport, Conn., a nonentity in big time golf until this week, put the pressure on the San Franciscoan in Friday's semifinals. He carried Harvie to the 34th green before yielding, 4 and 2.

Billy had a morning 72 and was only five over before he picked up on the 34th. Ward didn't have a birdie until the 27th.

FIGHT RESULTS

DETROIT — Frankie Ryff, 138, New York, outpointed Joey Lopes, 134½, Sacramento, Calif., 10.

HAMBURG, Germany—Gerhard Hecht, 180½, Germany, outpointed Henry Hall, 187, Milwaukee, 10.

Oregon Drops 26-7 Decision To Hononegah

ROCKTON —(Special)— Hononegah of Rockton's smooth single-wing attack and tailback Bill Larson proved to be too much for Oregon here Friday night as the Hawks fell to defeat, 26-7, in a non-league game.

Larson scored three touchdowns, two of which came on runs of 40 and 30 yards, and counted two extra points to lead the Rockton attack.

The unseasoned Hawks, who made matters worse by suffering from an acute case of "fumblites" throughout much of the game, finally scored early in the fourth quarter to cap a sustained drive.

Ray Robbins, Oregon fullback, plunged into the end zone for the Hawk's lone tally. He also converted.

Stewart scored Rockton's fourth touchdown in the third quarter when he picked up an Oregon fumble and sprinted 60 yards.

Oregon fumbled eight times and recovered only one of them. Four of the fumbles occurred the first four times Oregon had possession of the ball.

Two first string Oregon players, Jerry Johnston and Harry Beauchem, were injured and face a strong possibility of being out for the season.

Johnston, veteran 175-pound center, received a possible fractured arm while Beauchem, defensive right halfback, suffered a leg injury.

There was no freshman-sophomore game.

Score by quarters:

Rockton	6	6	7	7	26
Oregon	0	0	0	7	7

Touchdowns — Rockton: Larson (3), Stewart. Oregon: Robbins. Extra Points — Rockton: Larson (2). Oregon: Robbins.

Yankees First as Tribe Bows

Yogi, Bauer Homer in 9th to Win

By The Associated Press

The patent for the big home run still belongs to the New York Yankees.

And combining that talent with the unexpected help of Detroit's Steve Gromek, the starter-turned-reliever, the Yanks are back in first place again in that treacherous American League pennant race.

A one-out homer by Hank Bauer drew the Yankees even with Boston in the ninth inning last night and after Ellis Kinder, the Red Sox relief marvel, got the second out, Yogi Berra rapped a shot into the right field stands to win it 5-4. It was Yogi's 27th of the year and his second of the game.

Until the ninth, Kinder had been tagged for only two home runs all season.

Gromek, meanwhile, toppled Cleveland out of the lead with three-hit pitching in six innings of relief as Detroit won 3-0.

Sox Fall, 13-7

New York took over by two percentage points. The Yanks also gained a one-game edge in the all-important "lost" column. New York has won 89 and lost 56, with nine games remaining. Cleveland, with seven left, is 90-57.

Chicago's White Sox practically fell out of the fight with a 13-7 thrashing at Kansas City.

Boston played to the hilt the "spoiler" role it shares with Detroit. A three-run surge chased starter Whitey Ford in the eighth and gave the Red Sox a 4-3 advantage. But then, in a twinkling, it was all over.

In the process of claiming the lead for the first time since Aug. 30, the Yankees lost Mickey Mantle, who leads the league with 37 homers. He pulled a muscle in his right thigh beating out a bunt against Boston starter Frank Sullivan in the second inning.

'Doesn't Feel Good'

An official report on the injury will have to wait until Mickey tests the leg today. But Mantle admitted "it doesn't feel good. I guess I'll be out a couple of days."

The Tigers called on Gromek, who had failed in his last 12 starts, when Billy Hoeft pulled a tendon on the last pitch of the third inning. Gromek, a 35-year-old righthander traded to Detroit by the Indians in 1953, then went to work, striking out four as the Indians wound up with just four hits.

Gromek ended it by fanning pinch-hitter Ralph Kiner with two out and two on in the ninth.

Eary Wynn was the loser. Earl Torgeson broke up a scoreless duel with a two-run single in the seventh. An inning later, Ray Boone—another ex-Indian—doubled and scored on Bill Tuttle's single.

Dodgers Win

Kansas City scored seven runs in the first to swamp the White Sox, now five games behind on the losing side with seven left. That splurge chased Connie Johnson and Harry Byrd. Alex Kellner and Tom Gorman, an ex-Yankee, did the pitching for the A's.

In the other AL action, last place Baltimore swept a pair from Washington—the only club with an edge over Cleveland—5-4 and 8-7.

The National League champion Brooklyn Dodgers beat New York 4-3 as Gil Hodges homered twice. Willie Mays hit one for the Giants to claim the major league lead with 46.

Robin Roberts won his 23rd as Philadelphia beat Pittsburgh 8-1. The Bucs' Dick Groat homered, breaking the major league one-season record. The National, which set the old mark with 1,197 in '53, now has 1,206 home runs.

Milwaukee practically clinched second place, beating St. Louis 9-4 in the only other game scheduled.

The Morning After . . .

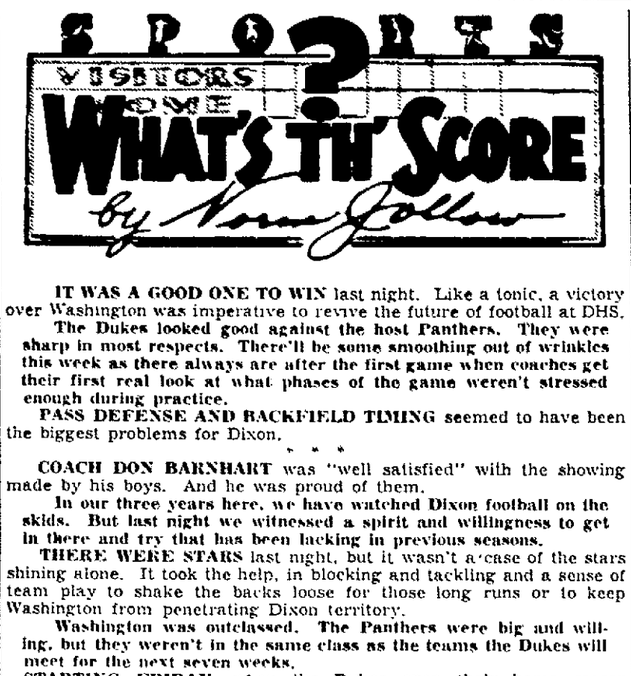

By "FRIDAY"

There are still a few vacancies in the coming season's bowling. We believe most of the night loops are filled, but the Recreation still has a few spots in the Wednesday and Friday afternoon league for women and the Tourday Afternoon loop for either men or women. If you'd like to bowl on either of these days turn your name in to Ken or at the Recreation as soon as possible as these leagues plan to start next Wednesday, Thursday and Friday.

At the Lanes Virgil Kidd is forming his junior bowlers' league. If you are a youngster between the ages of eight and sixteen, and were unable to attend the organization get together this afternoon, you can still get on one of the leagues by turning your name into either Virg or at the Lanes.

The Lanes also is planning its Wom-

(Continued on Page 11)

IT WAS A GOOD ONE TO WIN last night. Like a tonic, a victory over Washington was imperative to revive the future of football at DHS.

The Dukes looked good against the host Panthers. They were sharp in most respects. There'll be some smoothing out of wrinkles this week as there always are after the first game when coaches get their first real look at what phases of the game weren't stressed enough during practice.

PASS DEFENSE AND BACKFIELD TIMING seemed to have been the biggest problems for Dixon.

* * *

COACH DON BARNHART was "well satisfied" with the showing made by his boys. And he was proud of them.

In our three years here, we have watched Dixon football on the skids. But last night we witnessed a spirit and willingness to get in there and try that has been lacking in previous seasons.

THERE WERE STARS last night, but it wasn't a case of the stars shining alone. It took the help, in blocking and tackling and a sense of team play to shake the backs loose for those long runs or to keep Washington from penetrating Dixon territory.

Washington was outclassed. The Panthers were big and willing, but they weren't in the same class as the teams the Dukes will meet for the next seven weeks.

STARTING FRIDAY, when the Dukes open their home season against West Rockford (7-6 winner over Clinton), Dixon gets into real tough football.

* * *

ONE TRIES HARD not to get over enthused about last night's victory because of what is ahead. But football is still a game of fundamentals and good hard blocks and sharp tackles will stop bigger schools just as they will stop smaller schools.

Dixon may not have an undefeated season this year. They'll be in some rough competition for the next five weeks against West Rockford, Sterling, DeKalb, Ottawa and Hall, but like the man said, "You can't win them all without winning the first one." And by the same token, you can't lose them all if you win the first one.

THE DUKES WON the first one last night. It was the first victory for a Dixon football team since they beat Rock Falls in the next to last 1953 game. In between, Dixon teams lost nine straight.

Ohio in 42-0 Practice Win

SPRING VALLEY — The Ohio Bulldogs gave fair warning to Little Eight conference teams last night when they sprang a 42-0 scrimmage victory over the Hall Township frosh-soph team here.

It was a unique game which featured Ohio using an eight man offense against an eight man Hall defense and an 11 man defense against an 11 man Hall offense.

The Bulldogs, who are rated a heavy challenger for the Little Eight crown this season, rolled up 21 points in the first quarter, added seven in the second and wound up with 14 points in the third period.

Tom Gugerty scored twice, on a 35 yard reverse and a 40 yard pass while Dave Etheridge ran back a punt to 65 yards. Dick Anderson scored on passes of 45 and 30 yards and Jack Sheridan hit pay dirt on a 45 yard pass-lateral play.

Extra points were tallied by Gugerty, two on passes, Etheridge on a pass and by Dick Sisler, Sheridan and Anderson on runs.

Ohio, inactive in conference action this week since its opening foe, Bureau Valley dropped football, faces Tiskilwa next week in its conference opener.

In conference action, favored teams came through as expected. Tiskilwa rapped Neponset 41-20; Manlius tipped Buda, 27-18; LaMoille blanked Malden, 33-0, and Sheffield stopped Wyanet, 13-7.

Princeton Scores 18-0 Victory Over Walnut's Raiders

PRINCETON — (Special) — A stout Princeton defense proved too much for the Walnut Blue Raiders here Friday night as the Tigers racked up an 18-0 decision.

Walnut, limited to only two first downs and 71 yards, threatened only once when they reached the Tiger 5 in the second quarter.

Princeton scored in the opening canto and finished off with a pair of touchdowns in the fourth period. Don Hanson tallied on a 14 yard run while Denny Keleher went over from the three and Dick Freeburg scored from the six.

The Tigers, lacking a good passing attack, rolled up most of their yardage along the ground route, and though dominating play, could only crack the Walnut defense three times for scores.

Score by quarters:

Princeton	6	0	0	12	18
Walnut	0	0	0	0	0

Scoring: Touchdowns— Hanson, Keleher, Freeburg.

Mounders Jittery But Score, 6-0

Allenfort Sparks Drive to Fourth Period Touchdown

MT. MORRIS—(Special)—The Mt. Morris Mounders, plagued throughout much of the game with "first game jitters," finally tallied in the fourth period here Friday night to slip past the West Rockford JV's, 6-0.

Mounder quarterback Gene Hoffman scored the winning touchdown with a short plunge to climax a 75-yard drive.

Right halfback Bill Allenfort sparked the winning Mounder drive with runs of 26 and 19 yards. Dave Bechtold, Mounder left halfback, led the Mt. Morris attack by piling up 113 yards in 15 carries.

The Mt. Morris forward wall held West Rockford to only 11 yards rushing and 11 yards passing. The Mounders rolled up 208 yards rushing and 47 yards passing.

Mt. Morris picked up 13 first downs, completed five of seven passes, lost four fumbles while recovering one and was penalized 60 yards.

The losers netted four first downs, completed one of 15 passes and were penalized 30 yards.

There was no junior varsity game.

Score by quarters:

Mt. Morris	0	0	0	6	6
W. Rockford	0	0	0	0	0

Touchdowns—Mt. Morris: Hoffman.

Batavia Tops Hubs, 34-13

ROCHELLE—(Special)— Batavia scored in every quarter here Friday night to defeat the Rochelle Hubs, 34-13, in a non-conference encounter.

Both teams unveiled split-T running attacks but quarterback Luther Land, sparkplug of the Batavia offense, guided Batavia to an easy win.

Rochelle scored in the opening quarter when end Jim Hill caught a 15-yard pass from quarterback Bill Larson. Ron Orman ran the conversion.

The Hubs' only other tally came in the third period when fullback Dennis Mutton scored on a one-yard plunge.

Land and White scored two touchdowns each and Hall counted once for Batavia. Land, Richardson and Burton converted for the winners.

The Rochelle junior varsity won the preliminary game, 13-6.

Score by quarters:

Batavia	14	7	7	6	34
Rochelle	7	0	6	0	13

Touchdowns—Batavia: Land (2), White (2), and Hall. Rochelle: Hill, Mutton.

Extra Points—Batavia: Land (2), Richardson, and Burton. Rochelle: Orman.

SHORT DOUBLE

ST. LOUIS, Mo. (AP)—Catcher Bill Sarni is laughing to himself about the short double he smacked against the Pirates in Busch Stadium.

Sarni popped the ball high in the air above home plate but Pirate catcher Jack Shepard and first baseman Dale Long permitted it to land untouched a few feet in front of the plate. Sarni raced to second base and was credited with a double.

A LOT TO LEARN

ANN ARBOR, Mich. (AP)— Michigan's football coach Bennie Oosterbaan says sophomore Jim Pace, an Arkansas high school sensation, is "a good prospect, but he's got a lot to learn" before he plays left halfback for the Wolverines.

In Michigan's spring practice, Pace showed some shifty and fast running but average passing.

Comets Tie Sterling, 14-14

Newmaan's Commets turned in a major surprise in games involving North Central Illinois conference teams when they held the Sterling Golden Warriors to a 14-14 tie.

Elsewhere in the conference, Dixon turned back Washington, 38-0; Rochelle dropped a 34-13 count to Batavia; Princeton tripped Walnut, 18-0; Hall lost to Maine of Des Plaines, 34-0; Mendota tipped St. Bede, 26-6; Ottawa surprised LaSalle-Peru, 31-9; Rock Falls toppled Savanna, 34-0, Geneseo lost to Monmouth, 12-0, and DeKalb rapped West Aurora, 33-20.

It was a hepped up and heavy Newman squad that stopped the green and lighter Warriors in the annual intercity game between the two clubs. Sterling's line couldn't contain the hard running of Newman's back, headed by big Doug McGinn.

But it was mistakes that led to Sterling's troubles with a first period fumble setting up Newman's first score.

Savanna boasted a 200 pound line and limited Rock Falls to first and third period touchdowns before the Rockets unloaded a three TD splurge in the final period.

Breaks helped Ottawa crush LP. The Pirates scored twice in the first period when Jack Meckenstock scored on a quarterback sneak. Keith Severson later went 63 yards to score. In the second period, Bretag grabbed an L-P fumble in the air on the Ottawa 12 and returned it to the LaSalle 11. Meckenstock capped it with another sneak. A 32 yard run on a pass interception accounted for the Pirates fourth TD.

Ray Jouch ran for two touchdowns and passed to Jim Brown for another as Mendota won its opener. Brown scored the other TD on a pass from Jim Boyle.

Ken Miller, DeKalb's speedy halfback had a field day as the Barbs made the most of breaks in beating West Aurora. Miller returned a kickoff 93 yards, scored on a three yard plunge and on a 16 yard end run.

Though winning handily, the Barbs were outrushed, 310 to 224 and had fewer first downs, 18-9. But the Barbs scored twice in the second period once in the third and twice in the fourth. West got all its points in the final period.

Marcos Fail to Capitalize On Chances; Lose 7-0 Tilt

GALENA — (Special) — A 25 yard end run scored the lone touchdown of the evening yesterday as Galena nipped Polo, 7-0, in a close contest.

Statistics bear out the closeness of the game as the Marcos had 125 yards rushing to 157 for Galena and 32 yards on three pass completions in six tries to 10 yards on one of 5 passes.

Polo muffed several scoring opportunities to score. In the second period, after Galena had scored, Polo missed when a pass was dropped in the end zone. Twice in the third quarter, the Marcos pushed to the Galena 15 and the game ended with Polo on the Galena 11.

Galena's lone tally was registered in the second period by Doyle.

Score by quarters:

Polo	0	0	0	0	0
Galena	0	7	0	0	7

Scoring: Doyle.

EDITORIAL---Kathy Has an 'Accident'

BY VENUS INGLISH

"WHAT HAPPENED to my girl?" asked dad after he had kissed Kathy.

"I had an accident," she replied, proudly touching the small bandage that mother had put on her forehead.

"Seems to me you're pretty grown-up to be having accidents. How did it happen?" Dad sat down and drew Kathy onto his lap

"I was roller skating, and I coasted down the hill, and a lady was coming, so I ran into a tree to keep from hitting her," explained Kathy.

"Then it wasn't really an accident at all, was it? It was a painful effect of a careless act. There's a difference, you know, and for your own safety, I want you to learn that difference."

Dad hugged Kathy hard. "You see, mother and I love you very much. All parents love their children and want to see them grow up safely. That's why we try to teach you these differences in meanings so you can think more clearly. It will help you do the safe thing another time."

Kathy nodded.

* * *

"AN ACCIDENT," dad went on, "is something that nobody can do anything about. You could have done something about what happened. You could have skated on the level where you wouldn't be going so fast that you couldn't stop. Or, if the hill was too steep to be unsafe, you could have waited on the top until you were sure that nobody was coming—until you could see that the way was clear for you to stop when you wanted to.

"Almost all of what we call 'accidents' are like that. They aren't real accidents, but only the results of doing things that shouldn't have been done in that way at all.

* * *

"WHEN YOU'RE OLDER, you'll want to learn to drive a car. That car will be a thousand times as dangerous as roller skates because it's so much bigger and faster. Running into a tree then to get out of somebody's way will be much more serious. So for your own safety I want you to remember always that an accident is something that nobody could have prevented, but a collision or an auto wreck is usually something that could have been prevented if the driver had thought clearly and done what he knew was right BEFORE the accident was ready to happen."

He tilted Kathy's chin up so he could smile into her eyes.

"Let's not have any more painful effects from careless acts, shall we? And let's not call them accidents when they are something we could have avoided if we had thought before we acted."

Our World---School Comes to 'Down Under' Girl

ON A BEAUTIFUL lonely plateau "down under" in New Zealand lives a girl who waits for school to come to her every day.

Kathryn rides out on her pony to meet the mail truck which brings her lessons for the day. Her "schoolroom" is her living room, where her mother often joins her while she studies.

Although her life is isolated, it's comfortable in a modern home. And although she has few playmates, there's lots of tobogganing to be done on the beautiful mountain slopes around her.

Chuckle Bag---Try Out These Jokes for Laughs

Question: Why should a doctor never be sea-sick?

Answer: Because he is accustomed to see sickness.

* * *

Mary: What is the best way to keep water from coming into the house?

Ruth: Don't pay the water bill.

* * *

Ned: Dad, may I have a dime?

Dad: Don't you think you're getting too old to be begging dimes?

Ned: I guess you're right. Dad, may I have a dollar?

* * *

Boyd: Why did the moron think he was a magician?

John: Because he went around a corner and turned into a store

* * *

Boy: May I have a nickel for an old man who is outside crying?

Mom: Yes, dear, but what is he crying for?

Boy: Ice cream, five cents!

* * *

Bill: What does a long-necked giraffe do when he is hungry?

Ed: I don't know.

Bill: He eats.

* * *

Mother (hearing a crash in the kitchen): More dishes, Junior?

Junior: No, mother, less dishes.

* * *

Bill: Why is hay like a mouse?

Jim: I don't know. Why?

Bill: Because the cattle eat it.

* * *

John: Did you feel better when you went to the dentist?

Tom: You bet! He wasn't in.

Librarian: Please be quiet. The people near you can't read.

Little Boy: Why, they ought to be ashamed! I've been able to read since I was six!

* * *

Dumb: I don't see how football players ever get clean.

Dumber: Silly, what do you think the scrub team is for?

* * *

Question: What goes up and never comes down?

Answer: Your age.

* * *

Tom: Why do geese fly south in the fall?

Jim: I don't know. Why?

Tom: It's too far to walk.

* * *

Teacher: Joe, this essay on "My Mother" is exactly like the one your brother wrote.

Joe: Same mother.

* * *

Question: Why do they dress boy babies in blue and girls in pink?

Answer: Because they can't dress themselves.

—Cheerful Earful

Something to Try---Plant a Gay Garden in Glass

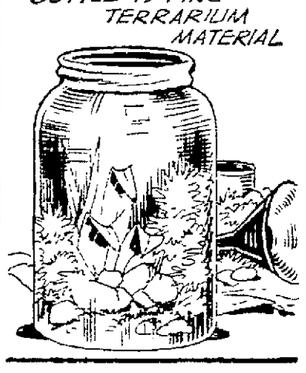

HAVE YOU ever seen a large jar or odd-shaped bottle completely filled with growing plants and wondered how so many things could grow in such a small space?

There's really no trick to growing these glassed-in gardens or terrariums, and how delightful they can be all winter, growing at your window.

Let me tell you how to make one. Then hike into the woods after frost for your materials. Plants grow better in glass if hardened by cold weather and some frost.

Any clear glass bottle or big-mouthed jar is fine for a terrarium material. But for our purpose here, let's use a large-mouthed gallon jar with a good cork.

For basic materials you'll need a coarse strainer, a funnel, a can

of tiny gravel, a few lumps of charcoal, and two or three small colored rocks.

Ordinary potting soil is fine for some plants, but wood ferns and plants obtained from the woods require leaf mold, the soil formed from decayed leaves under trees. Use green moss, found growing in damp, shady places, for the garden foundation.

Place moss pieces close together, green side down, over the bottom and up on the sides of the jar to a height of about three inches.

Next add a thin layer of gravel mixed with crushed pieces of charcoal. Cover with sifted leaf mold, put in through a funnel to keep jar sides clean. Fill to top of moss about three inches deep.

Until you learn more about glass-garden gardens, use hardy ferns from the woods that are easy to grow. Choose several specimens with good roots.

Bury roots well to hold plants up. Plant a small Coleus slip for color. Sprinkle a few grass seeds to "carpet" the garden.

On one side, the viewing side, leave an open space for colored gravel and the larger rocks. Here you might also place a small plastic or glass frog or turtle.

Water the completed jar lightly and cover to hold the moisture. If the sides of the jar stay moist, your garden is fine and needs no extra water.

Place in full light but not in direct sun for best growth. Prune occasionally to prevent overcrowding.

Remove plants when they become too large or diseased. Replant with different things from time to time for added enjoyment. Even experiment with different kinds of seeds and plants.

Can you think of a nicer indoor hobby?

You Should Know---Unusual Bits of Information

HIGH IN the mountains on the boundary between Argentina and Chile is a huge statue called the Christ of the Andes. People from both countries can see it from many miles away. A giant figure of the Christ, His hand raised in benediction. It reminds them that once their countries were enemies, but that now they are friends.

In 1904 the women of the two countries took the lead in erecting the statue. Pieces of old cannon and other guns that had been used in the fighting were melted down to make the statue.

There have been other disputes between the two countries since 1904 but there has been no war. Perhaps the Christ of the Andes has prevented it.

Leonardo da Vinci conceived the idea of the airplane nearly 500 years ago, getting his inspiration from watching the birds.

The Cutty Sark is the only remaining clipper ship of the great sailing ship days. Built in 1870, the giant sea clipper is now a museum in England. The ship once averaged 15 knots on a voyage from England to Australia, a record speed, in spite of an accident which damaged two of her masts. Although she set sailing records, the Cutty Sark was the eventual loser in the battle with more dependable steam ships.

A comet's tail always streams out from the comet head in a direction away from the sun, so when a comet is moving away from the sun, its tail precedes its head.

In South America there are some ants that carry huge pieces into their underground homes. In the dark, these leaves soon form a mold which the ants use for food. As the ants carry the leaves along the ground to the doorways of their homes, they look as if they were carrying parasols; hence, their name, the parasol ants.

Michigan ranks 12th among the states in value of minerals produced.

There is still plenty of investigating to be done in the field of insect study. It has been estimated there are 10,000,000 species, of which only 475,000 species are known to science.

Mountain-Going Galleon Seeks Lofty Treasure

ONE DAY, not so very long ago, an out-of-town automobile screeched up to the sheriff's office in the little town of Fairplay, Colo. An excited woman tumbled out, and stuttered what she thought was an incredible statement to the bored deputy in charge: "There's a great big ship—a real ocean liner—right in the middle of the mountain, straight ahead.

"It's got all its lights on. I saw it with my own eyes while I was on the highway. You won't believe me. But I swear that it's the truth."

The official only yawned, then said patiently, "Relax, lady. That liner is a real one. It's called the Golden Galleon, and it's owned by a man out here named Web Skinner. The whole town of Fairplay is mighty proud of it."

The sight of a 2500-ton vessel moving slowly across a range of peaks in a glacial basin 70 feet deep and a half acre in area, at an elevation of 11,000 feet is mighty unbelievable.

DIGS GOLD ORE

But even more unbelievable is its purpose for being there: the digging of gold ore, right out of the water.

The "voyage" the vessel takes is a never-ending one. For it works its way through its "sea" around the clock, year in and year out.

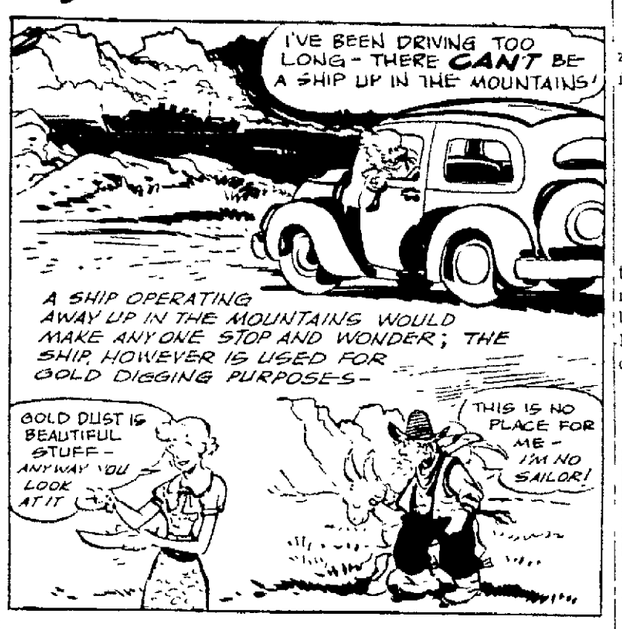

As it moves, it scoops up gold-bearing glacial deposit. This is panned on board by a special dredge which extracts the ore by screening it and running it through sluice boxes, following the old, time-honored method used by the '49er prospector on his lonely mountain stream.

Next, the waste dirt and gravel go over the side, forming an ever-advancing shore line. In an average week, as much as three-fifths of an acre is "eaten" in this way by the 101 giant dredge buckets that are situated on deck.

FANTASTIC ORIGIN

Where does the ore come from? According to geologists, the answer to that one is as fantastic as everything else about the Galleon.

A prehistoric Ice Age glacier

moved down from the north, cutting away the mountains as it went, and grinding up a mother lode (or main streak) of gold while it was at it. This was well mixed, then, with particles of gravel.

Eventually the glacier melted. The free gold that it left is what the Golden Galleon is engaged in panning.

How much power is required to operate the dredges? More than a half million kilowatt hours, every month, for the 800-horsepower generator which is used in turning the huge drums which wind the wire rope.

This, in its turn, raises and lowers the never-ending belt of patient dredge buckets. Auxiliary winches are also used, to pull the boat along in measured five-foot steps.

CREW OF PROSPECTORS

What's the crew like? The 25 members aren't sea-going sailors. Instead, they're ultra-modern gold prospectors.

But each can simulate the most experienced old salt, when it comes to experience. For all are familiar with gales, high waves, and even mal de mer.

This is contracted in sub-zero wintertime weather when a heavy sea results from the freezing of the top layer of earth. When this happens, the dredge must undercut the frozen bank, which makes it break off, fall into the water, and create mountain-high waves that break over the bow.

RUGGED SAILING

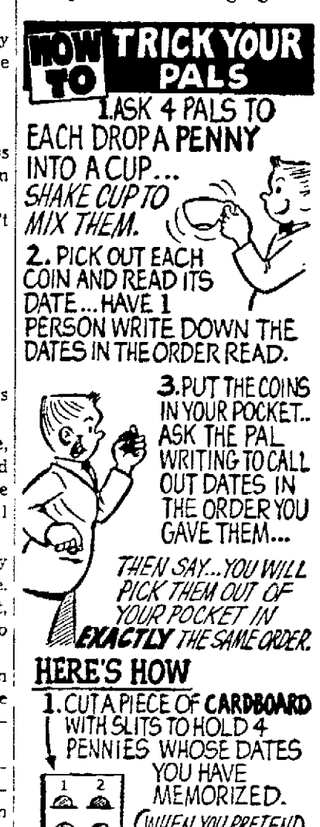

All kinds of damage result, such as smashed windows on the navigating bridge that's a full 20 feet above the deck. The ship is also thrown backward and rocks violently, which causes good old-fashioned seasickness two miles above sea level.

Other troubles are caused by tremendous chunks of ice that form on the deck like miniature icebergs. The only way to remove them is with dynamite.

In the away-back-when days, gold was difficult to find. But once you did, you owned your fortune.

Today, contrariwise, the price is pegged at a pat $35 per ounce. Consequently, despite all her modern efficiency, there are many weeks a year when the gallant Golden Galleon doesn't recover enough of this so-called precious metal to pay her expenses.

—Bess Ritter

You need only a minimum of equipment to develop the pictures you take with your camera. Photography is a fascinating hobby and it need not be expensive.

Start of a New Fad

A SIGNATURE SCARF!

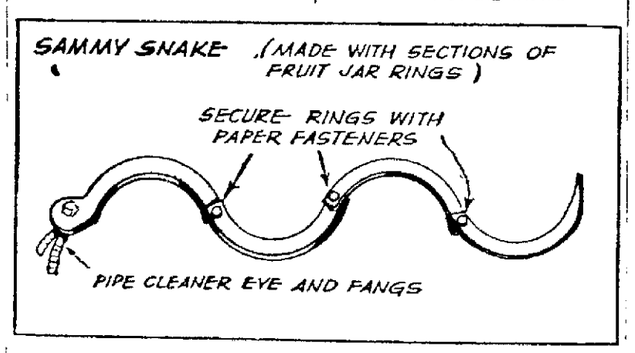

Doesn't that sound like a smooth idea?

To make this clever accessory you'll need a plain, light-colored scarf. When you meet your friends, ask them to write their names on the scarf, using a soft black lead pencil.

To make the signatures permanent, embroider the pencilled names with embroidery floss. Or, trace over the writing with indelible cloth-marking ink. If you use the ink system, be careful not to use too much ink on the pen. Excess ink can make blots on the scarf.

The difference between a ketch and a yawl is often hard to tell. Just remember that the small after-mast of a yawl is aft of the steering wheel while on a ketch the small after-mast is forward of the steering wheel.

Weatherman Looks Ahead For 30 Days

WASHINGTON (AP)—The Weather Bureau does not expect much of the United States to have normal temperatures and rainfall between now and mid-October.

It issued this report Friday:

"The Weather Bureau's 30-day outlook for the period from mid-September to mid-October calls for temperatures to average below seasonal normals over the northern third of the nation, above normal in the lower half, and near normal in the remaining area. Warmest weather is anticipated over the Southwest.

"Precipitation is expected to exceed normal over the northern tier of states and also in the Southeast. Elsewhere subnormal amounts are predicted."

SHORTEST ADDRESS

George Washington, at his second inauguration, held at Philadelphia, on March 4, 1793, delivered the shortest inaugural address of any U.S. president.

One-Minute Reviews Describe New Books at Dixon Library

NEW BOOKS AT THE DIXON PUBLIC LIBRARY

Religious Factors in Mental Illness, by Wayne Oates. A book which will be of interest to many readers; those intrested in psychiatry, psychology, religion, and for pastors to use in counseling.

Kathy Ann, Kindergartner, by Frances Dunlap Keron. Under the guise of a small child talking the author gives some pertinent advice on how to handle a kindergarten class or Sunday School class of the same age children. There are pointers on the physical setting as well as the psychological aspects of the teaching and handling.

Education Opportunities for Youth, by Walter M. Daniels. This volume in the Reference Shelf series is concerned with federal aid to education, giving both sides of the issue.

Price Guide to Pattern Glass, by Ruth Webb Lee. A new edition with revised prices on antique glass by the chief authority.

Track and Field Athletics, Including Cross-Country, by H. A. Meyer. A new book on the subject is always welcome; there are very few.

Greece, by Dore Ogrizek. The volume on Greece in the beautiful World in Color series from McGraw. This book was purchased with the Eleanor and Harry Edwards Fund.

The Vigilantes of Montana, by Thomas J. Dimsdale. An authentic and complete narrative on the days of roving bands of outlaws in early Montana history.

A History of Latin America from the Beginnings to the Present, by Hubert Herring. The author of "Good Neighbors" has rewritten and expanded the policy to include more history than the earlier book. His style is readable and his opinions trustworthy. Purchased from the Edwards Fund.

American Illustrated Medical Dictionary, by William A. N. Dorland. This expensive and useful book will be used for reference in the library only, and is a gift to the library from Miss Esther Barton and Miss Elsa Larson in memory of Dr. Zoltan Glatter.

FICTION

The Far Journey, by Loula Grace Erdman. To join her husband, a woman travels by covered wagon from Missouri to Texas, accompanied by her small son.

The Golden Balance, by Arthur D. Hall. The love story of Senmut and Princess Hat-Shep-sut in ancient Egypt.

Waterfront, by Budd Wilson Schulberg. The novel based on the same theme as the movie "On the Waterfront" which script was by the same author. The novel is not exactly the same as the movie, more grim and realistic.

The Big Pick-Up, by Elleston Trevor. A novel of some soldiers trapped inland at the time of the Dunkirk rescue.

The Tree of Man, by Patrick White. The struggles of a pioneer family in Australia.

India has about 350,000 motor vehicles — about one for every 1,000 people.

Two Brothers Reunite After 75 Long Years

LOUISA, Ky. (AP)—Two brothers in their 90's have a lot of talking to do the next few days.

They were reunited Friday for the first time in 75 years.

It was a time for tears when Paris Blankenship, 90, walked up to the home of his brother, Dan, 95, and introduced himself.

He was returning from a junket in the West that started when he was 15. A job in Minnesota first delayed his return. Travel and other jobs in other states kept him far from home.

The last correspondence the brothers had was 40 years ago when Paris wrote Dan for money. Dan sent $30.

Indonesia has a population of 80 million.
